Freddie Mac
MULTIFAMILY

Multifamily Business and Securitization Program Overview

Investor Presentation

As of December 31, 2025

Multifamily Business Overview

Freddie Mac Multifamily Business Key Facts

Freddie Mac's core mission is to provide liquidity, stability and affordability to the U.S. housing market

The Freddie Mac Multifamily line of business helps to ensure an ample supply of affordable rental housing by purchasing mortgages secured by apartment buildings with **five or more units**

Freddie Mac buys loans from our network of **Optigo® lenders** — with over **150 branches** nationwide, substantial lending experience and established performance records

Freddie Mac follows a **prior-approval underwriting** approach and completes the underwriting and credit reviews of all newly originated multifamily mortgages in-house. Occasionally, we securitize loans or bonds contributed by third parties that are underwritten by us after origination

Multifamily employs over **990 experienced** professionals at its headquarters, five regional offices and three field offices

Freddie Mac has provided **$1.1 trillion** in financing for over **115,000** multifamily properties since 1993, representing **14.4 million** apartment units*

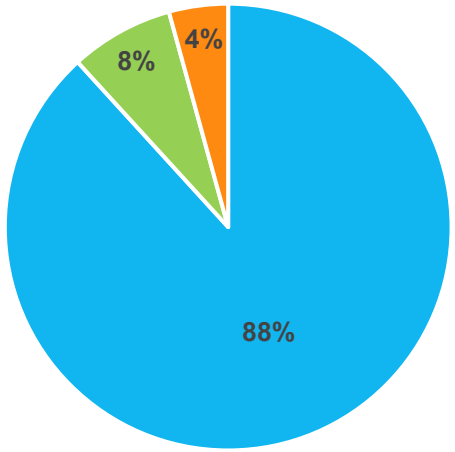
Freddie Mac's Multifamily mortgage portfolio of **$496 billion** comprises **$448 billion** of securitized mortgage loans, **$38 billion** of unsecuritized mortgage loans, and **$10 billion** of other mortgage-related guarantees

* Includes rental units financed by supplemental loans

Multifamily Business Review

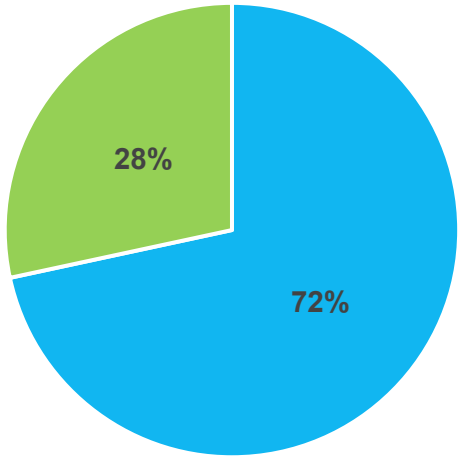
Freddie Mac Multifamily new business activity was $76.4 billion for 2025 and provided financing for nearly 3,900 multifamily properties, representing approximately 617,000 rental units

2025 New Business Activity*
(based on UPB)



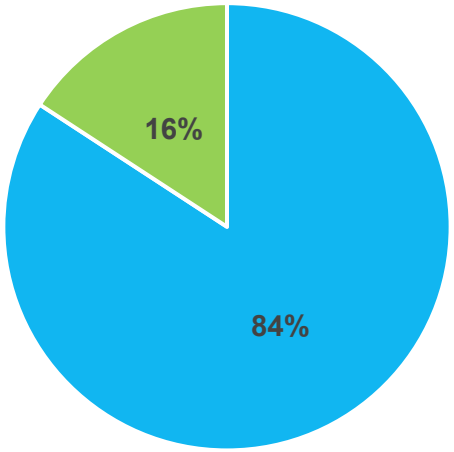
- Held-For-Investment Loans
- Held-For-Sale Loans
- Other Guarantees

2025 New Business Activity*
(based on # of loans)



- Refinance
- Acquisitions

2025 New Business Activity*
(based on UPB)



- Fixed-Rate
- Floating-Rate

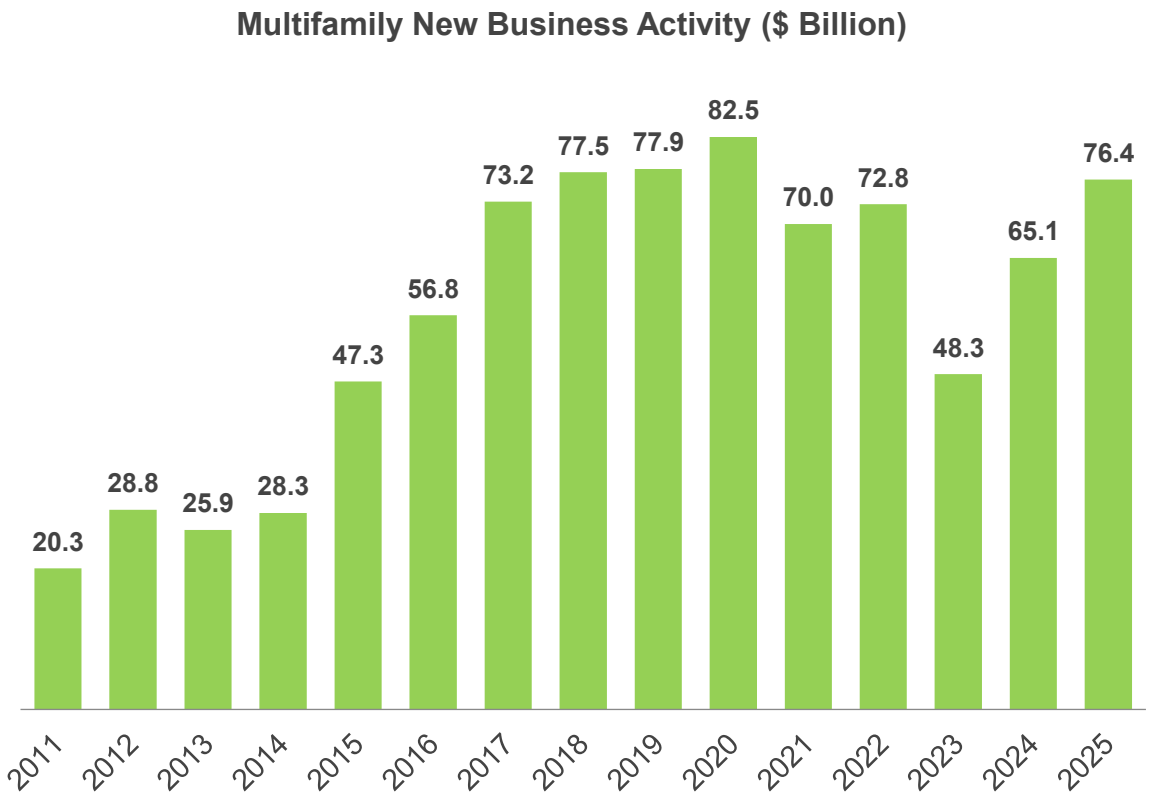
* Does not include Low-Income Housing Tax Credit (LIHTC) equity investments.

Multifamily New Business Activity

We continue to support the needs of the rental housing market across communities nationwide

Performance ($ Billion)	2024	2025
New Business Activity		
Total New Business Activity	$65.1	$76.4
Key Products		
Targeted Affordable Housing (TAH)	$17.1	$20.6
Small Balance Loans (SBL)	$2.7	$3.1
Manufactured Housing Communities (MHC)	$1.6	$2.2
Seniors Housing	$3.4	$4.3
Student Housing	$1.8	$2.7

We continue to provide financing for properties nationwide



Notes:
1. Numbers represent Freddie Mac's total new business volumes
2. This chart does not include Freddie Mac Multifamily LIHTC equity investments. Approximately $1.2 billion was invested in 2025.

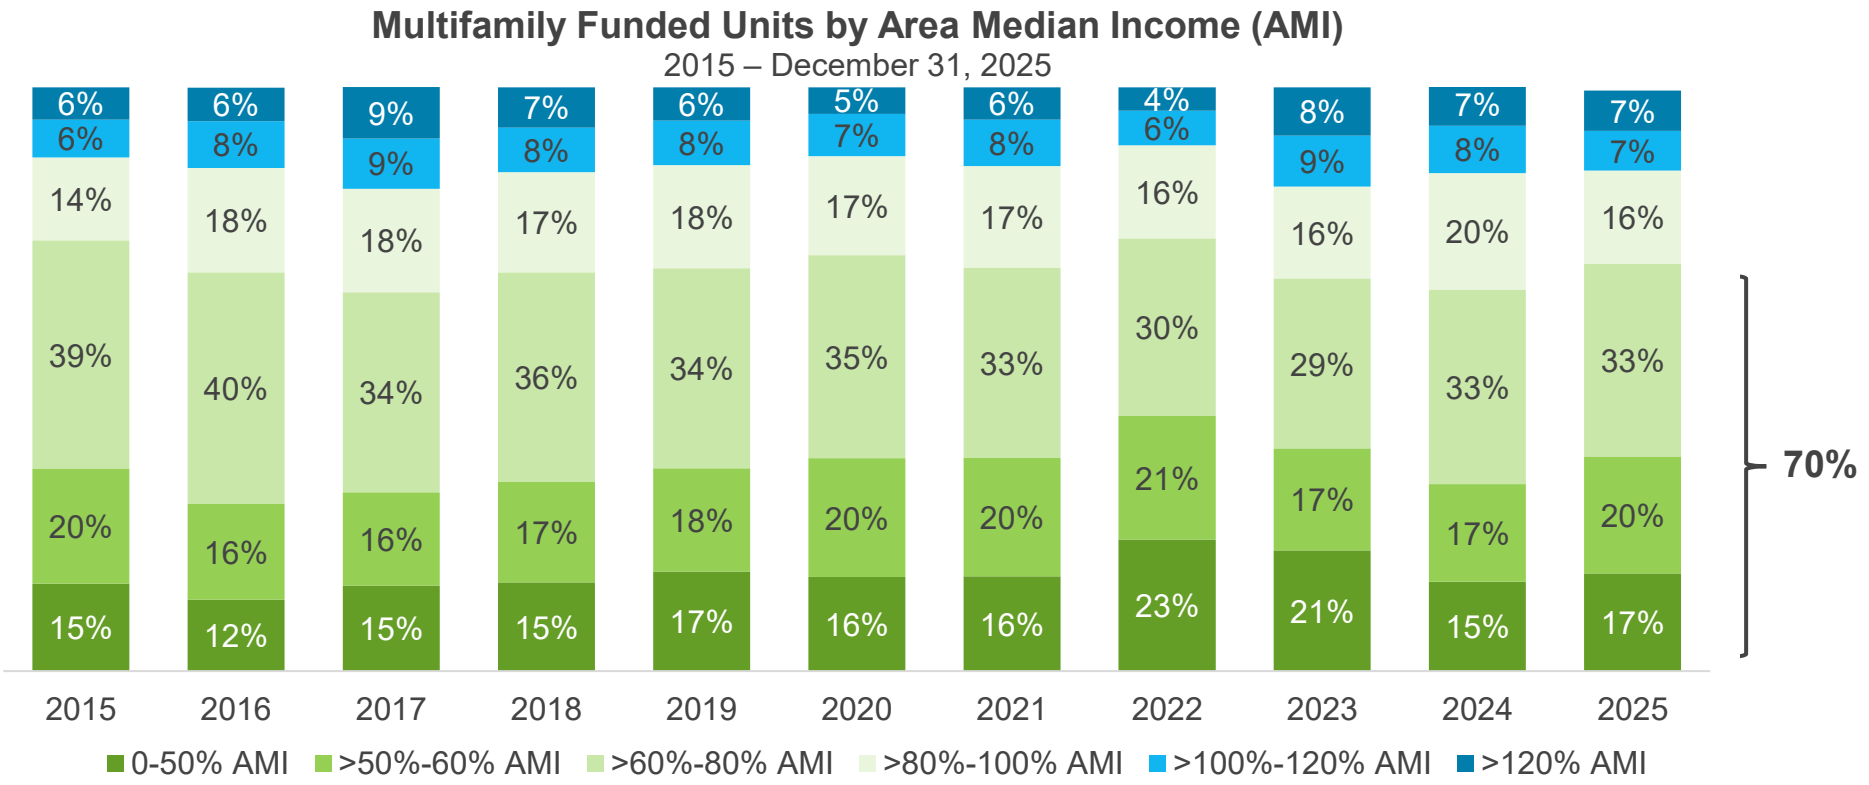
New Business Activity (Continued)

	2024	2025	% Change
Q1	$9.1B	$10.3B	13.2%
Q2	$11.0B	$11.6B	5.5%
Q3	$14.9B	$25.6B	71.8%
Q4	$30.0B	$28.9B	-3.7%
Total	$65.1B	$76.4B	17.4%

Notes:
1. Numbers represent Freddie Mac's total new business activity
2. This chart does not include Freddie Mac Multifamily LIHTC Equity Investments. Approximately $1 billion was invested in 2024 and $1.2 billion was invested 2025.

Financing Affordable Units

70% of the eligible units that we financed in 2025 were affordable to households earning at or below 80% of the area median income (AMI)



The numbers above represent the percentage of affordable units at each AMI threshold. Totals may not add to 100% due to rounding. Additionally, FHFA mandated exclusions (MHC, supplementals, etc.) are removed

Multifamily Key Metrics

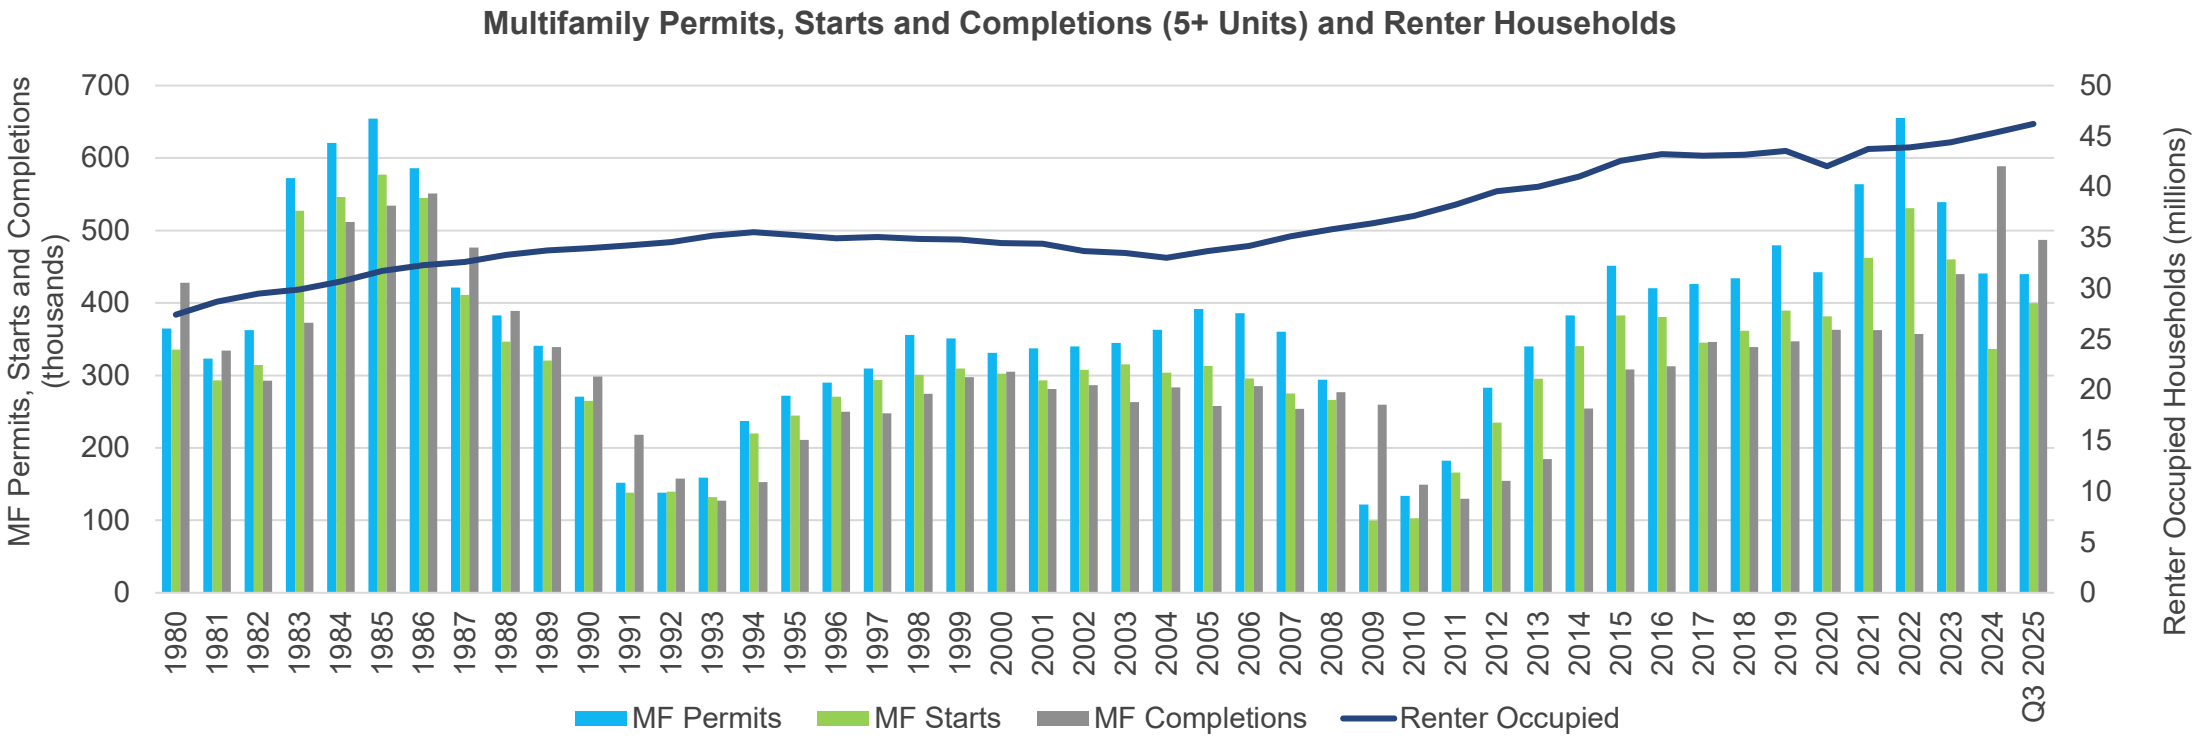
We maintain strong credit and capital management discipline

Key Metrics	2024	2025
New Business Activity (excludes Low-Income Housing Tax Credit (LIHTC) Investments)	$65.1 billion	$76.4 billion
Mission-Driven, Affordable Housing (based on UPB)	~65%	~66%
LIHTC Investments	$1.0 billion	$1.2 billion
Units Financed	~553,000 units	~617,000 units
Comprehensive Income, Net of Taxes	$2.5 billion	$1.6 billion
Mortgage Portfolio	$467 billion	$496 billion
60+ Day Delinquency Rate	40 bps	44 bps

Multifamily Market Overview

Multifamily Supply

Permitting in the first nine months of 2025 was similar to 2024, but well below the peak in 2022. Starts were up in the first nine months of 2025 compared with 2024, although they were also significantly below the level seen a few years prior. Completions were down from 2024 but remained elevated

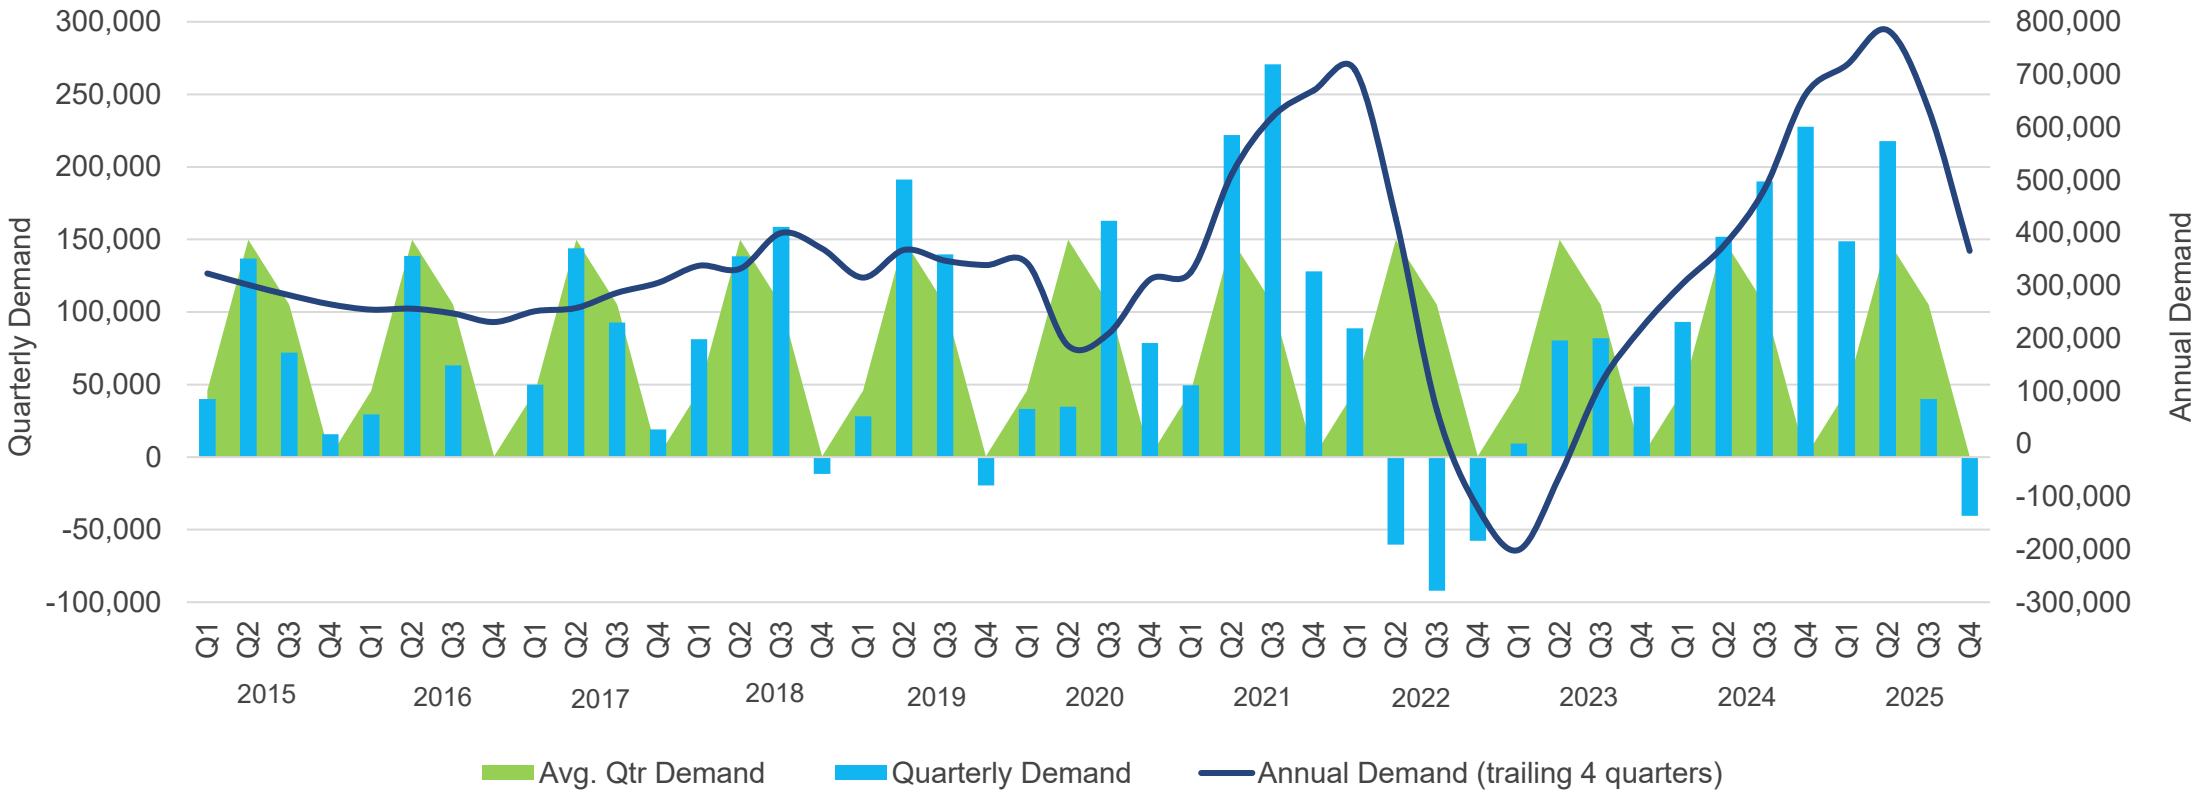


Sources: Moody's Analytics CRE, DataBuffet.com and U.S. Census Bureau

Notes: Q3 2025 through September. Starts and completions based on all areas of the U.S., while permits are only for areas that require a building or zoning permit. Moody's Analytics estimated that in 2000, 95% of the population was living in a permit issuing area. Data for 2025 only includes Q1-Q3. Due to the government shutdown, Q4 2025 data is unavailable.

Multifamily Demand

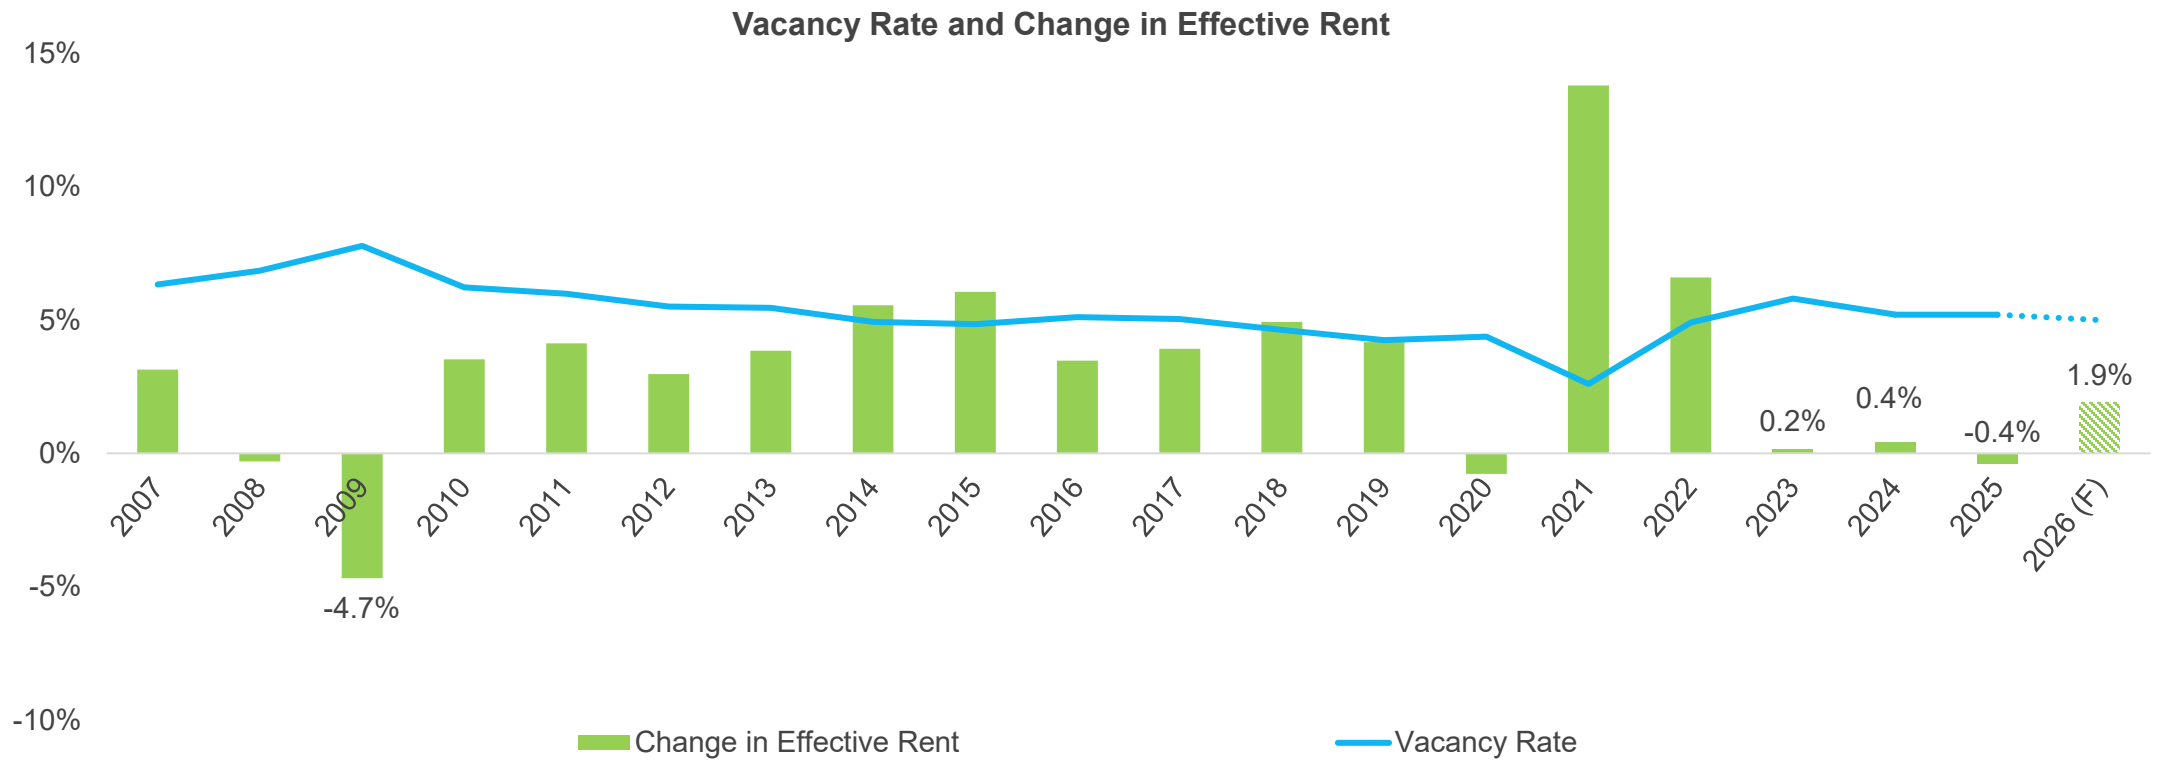
After a strong start to the year, demand slowed significantly during the third quarter of 2025 and turned negative during the fourth quarter; demand declined well beyond the typical seasonal fourth-quarter slow down



Sources: RealPage and Freddie Mac

Multifamily Rent Growth and Vacancy

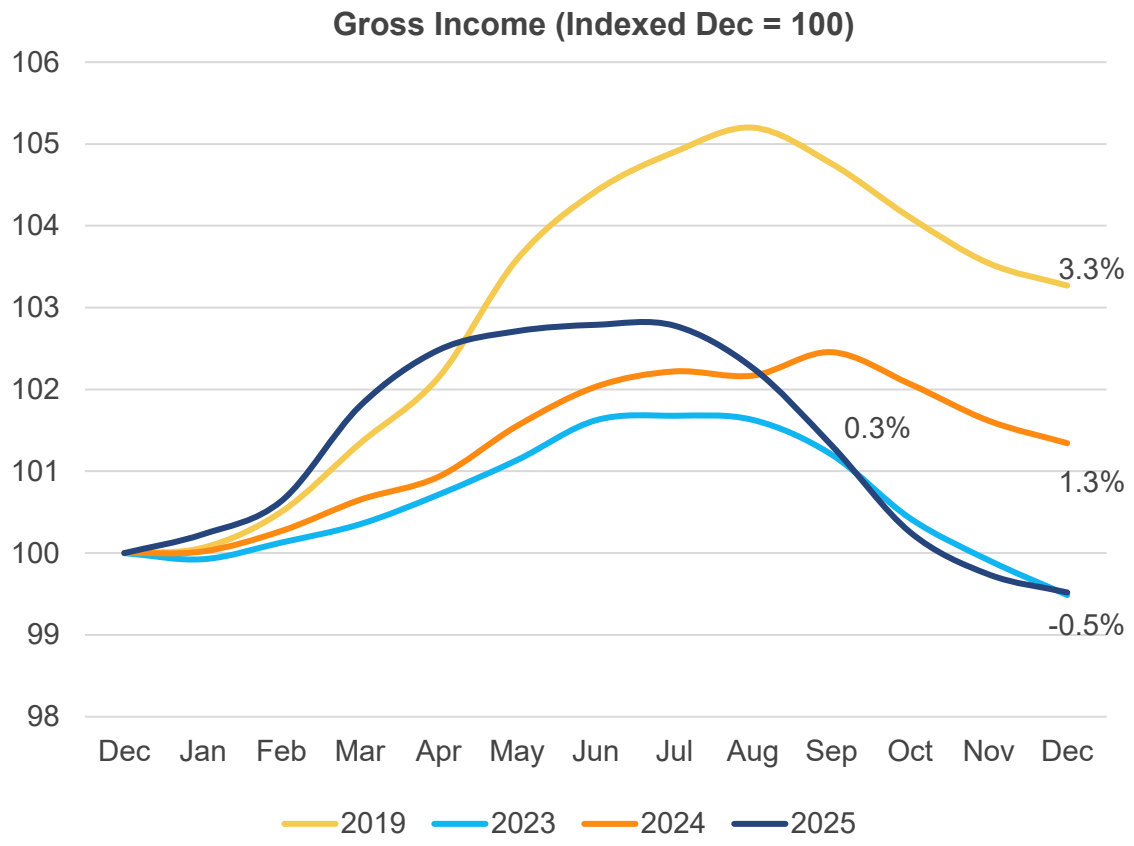
Rent growth during the first half of the year was strong but turned negative during the third quarter and ended the year down 0.4%, while vacancy continued to rise to 5.2% at year-end. Projections for 2026 indicate positive but below-average rent growth and stable occupancy

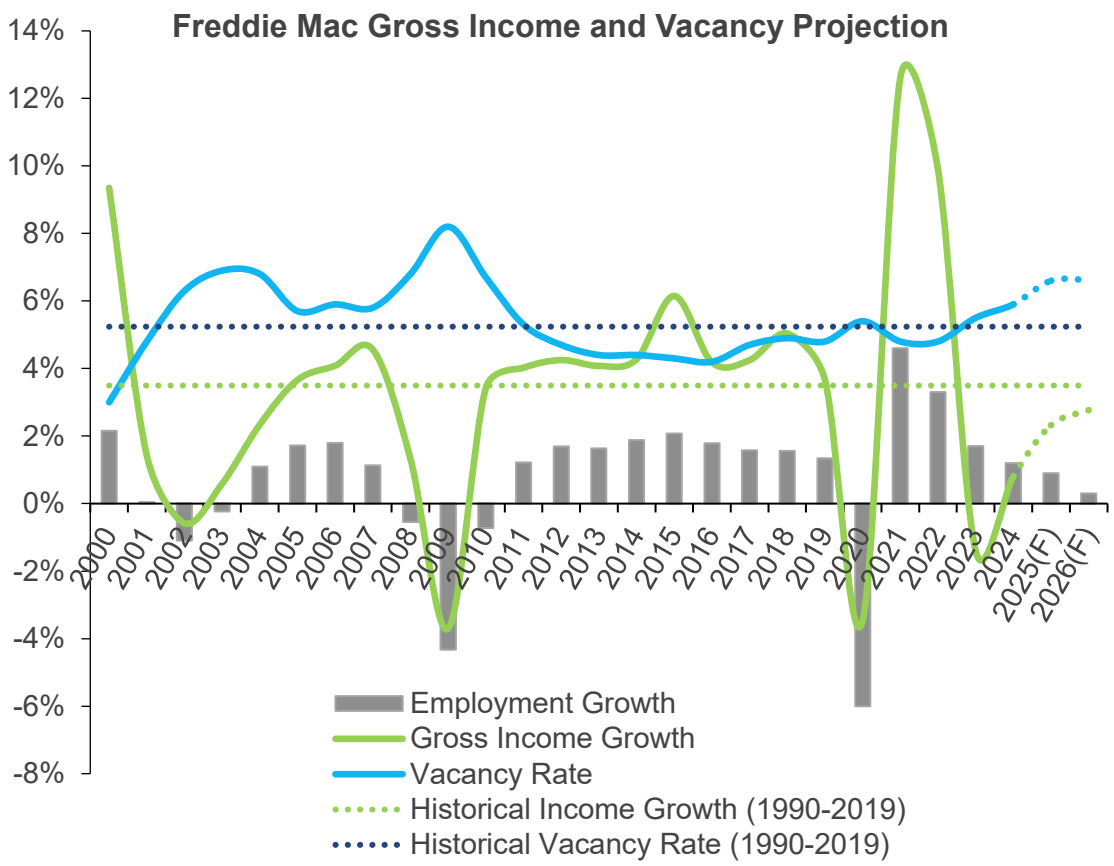


Sources: RealPage and Freddie Mac

Multifamily Gross Income Growth

Gross income growth (rent growth net vacancy) started the year strong, but ended the year down 0.5%, very similar to 2023. Our forecast for 2026 indicates below-average gross income growth and elevated vacancy rates

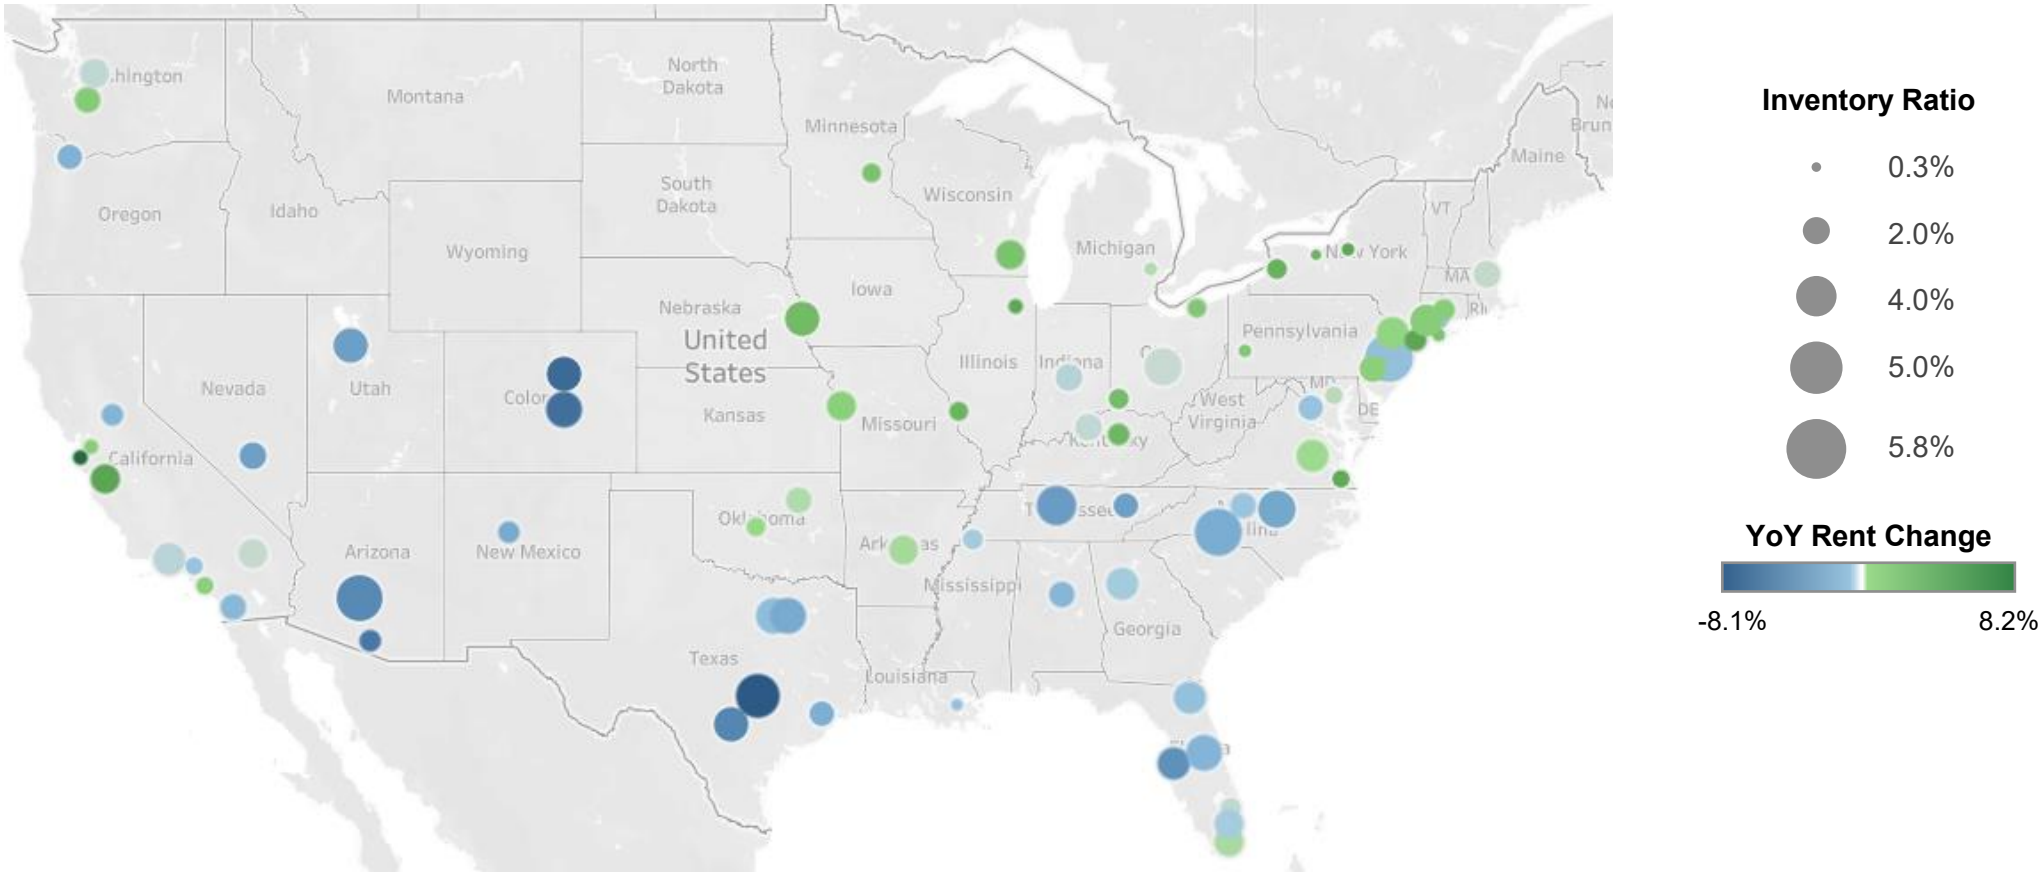




Sources: RealPage, Moody's Analytics CRE, and Freddie Mac

2025 Year-Over-Year Rent Growth and 4Q Inventory Ratio

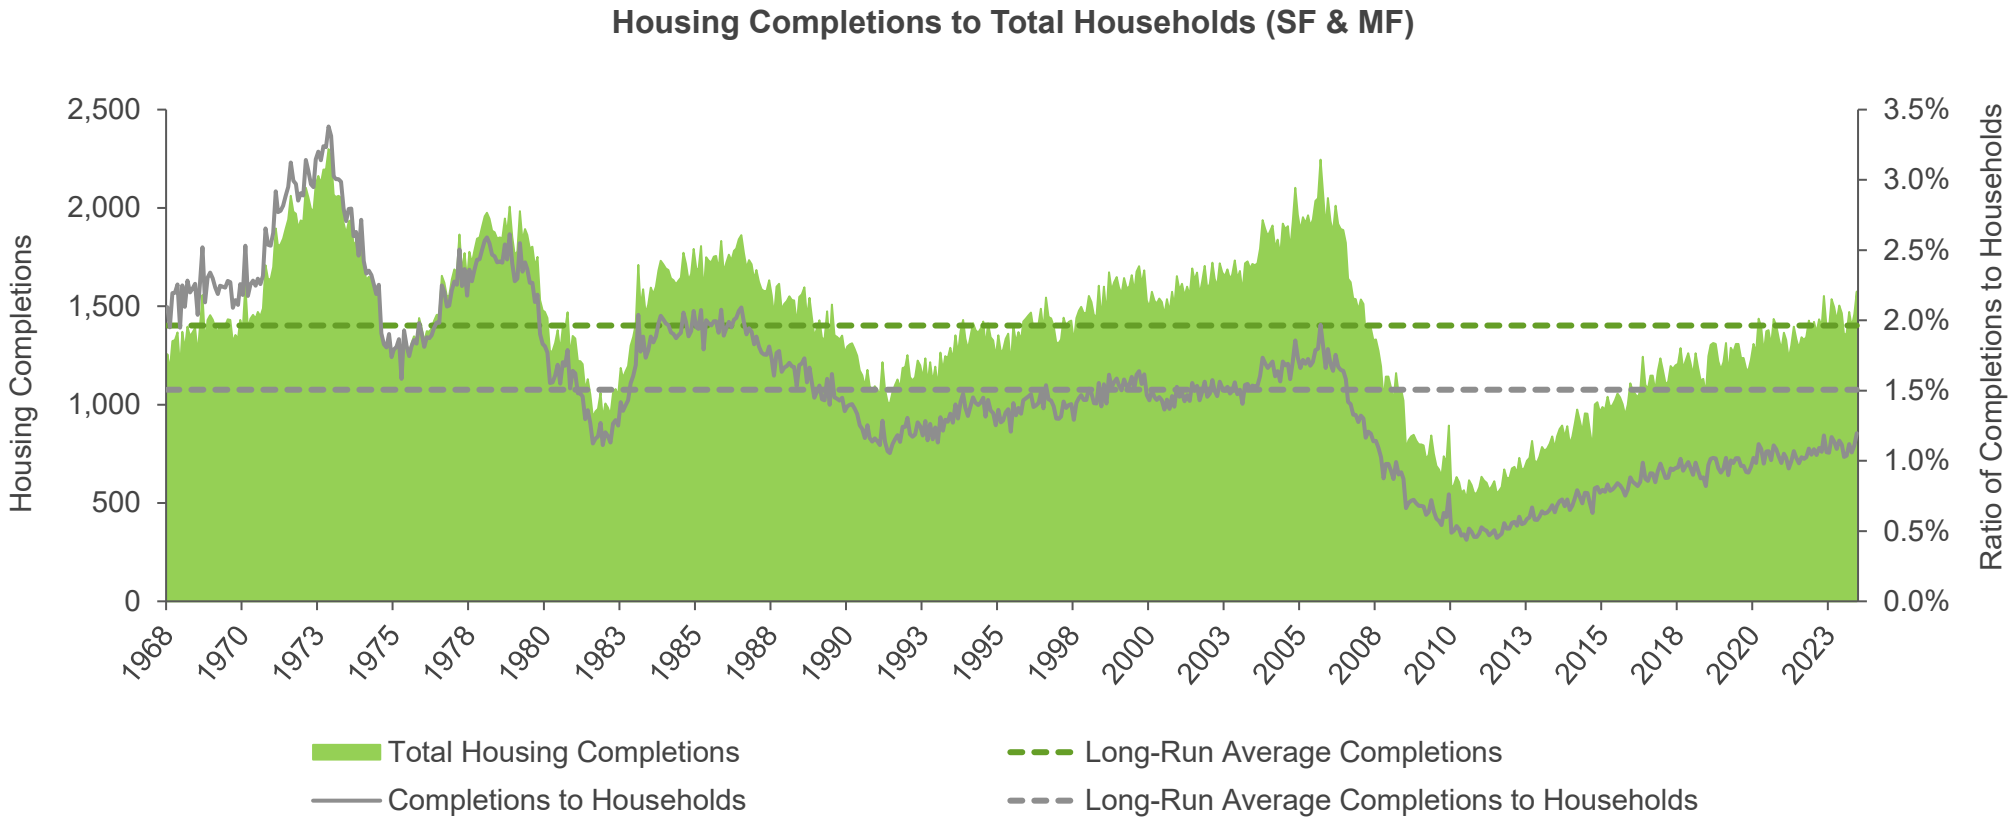
The Sun Belt and Mountain West regions, which generally are seeing the highest supply ratios, are seeing negative rent growth, while several large gateway markets and those with lower supply are generally seeing above-average rent growth



Sources: RealPage and Freddie Mac

Housing Completions to Total Households

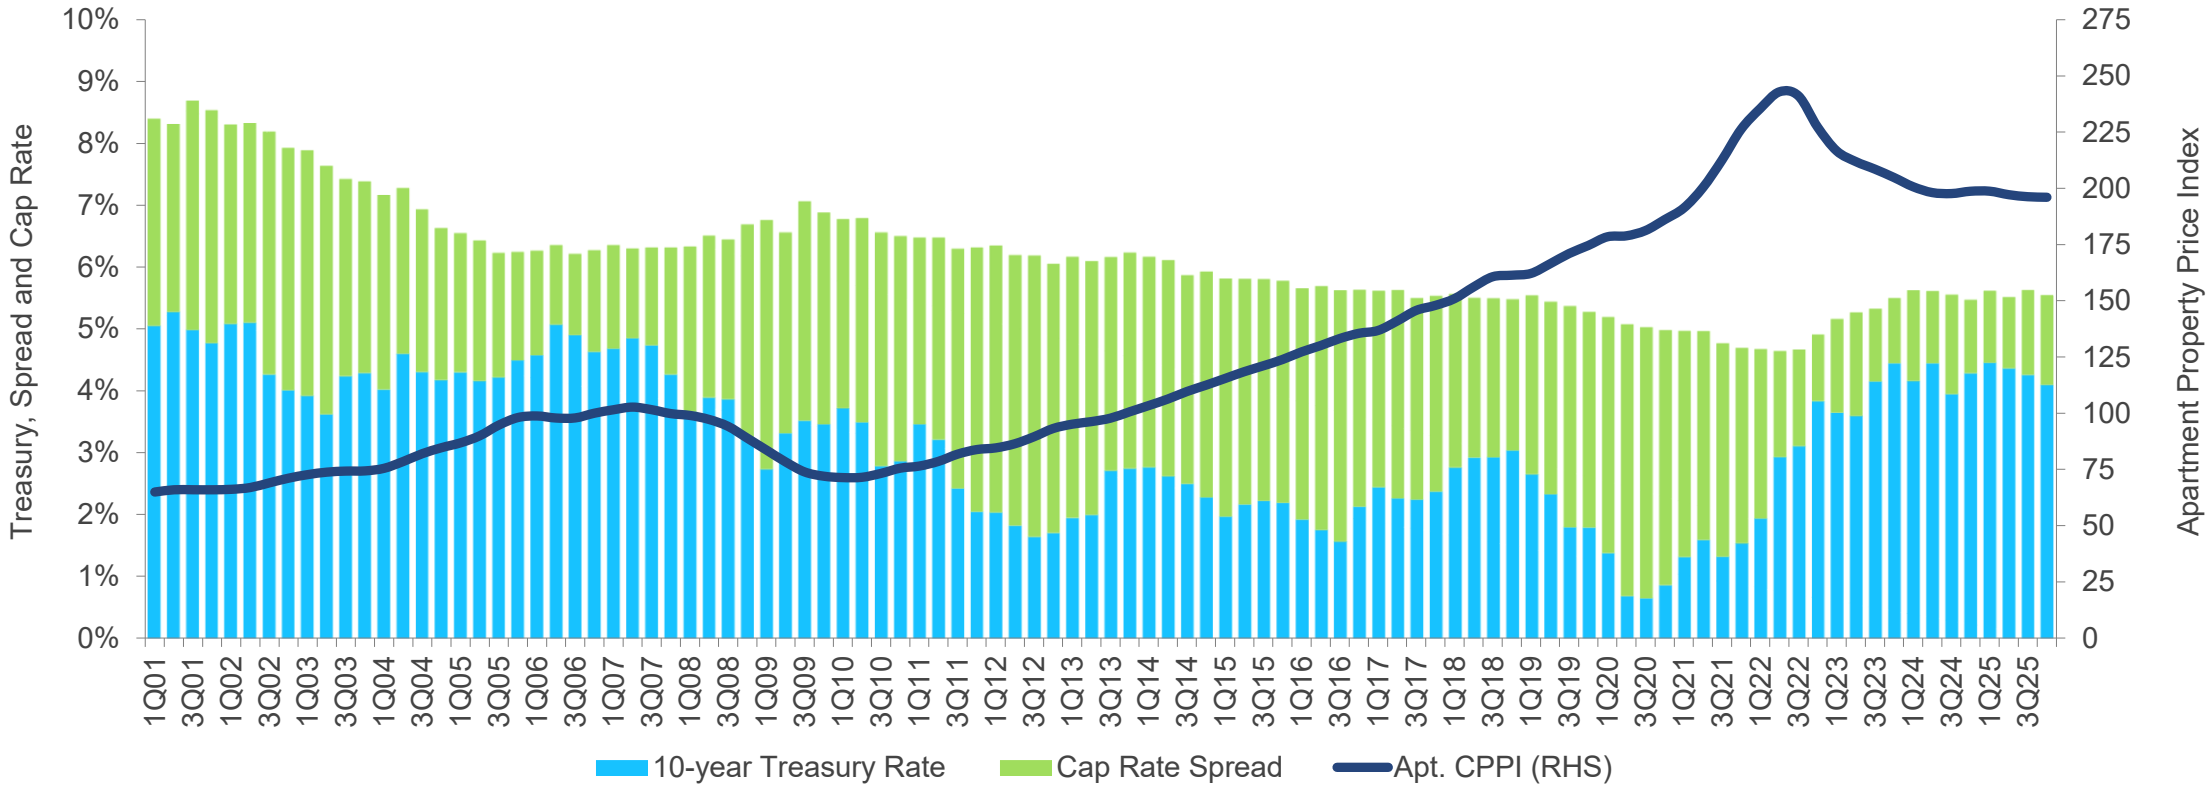
Total housing completions are in line with the long-run average after lagging for more than a decade. However, the completions-to-households ratio is still below the long-run average



Sources: Moody's Analytics and U.S. Census Bureau

Multifamily Cap Rates and U.S. Treasuries

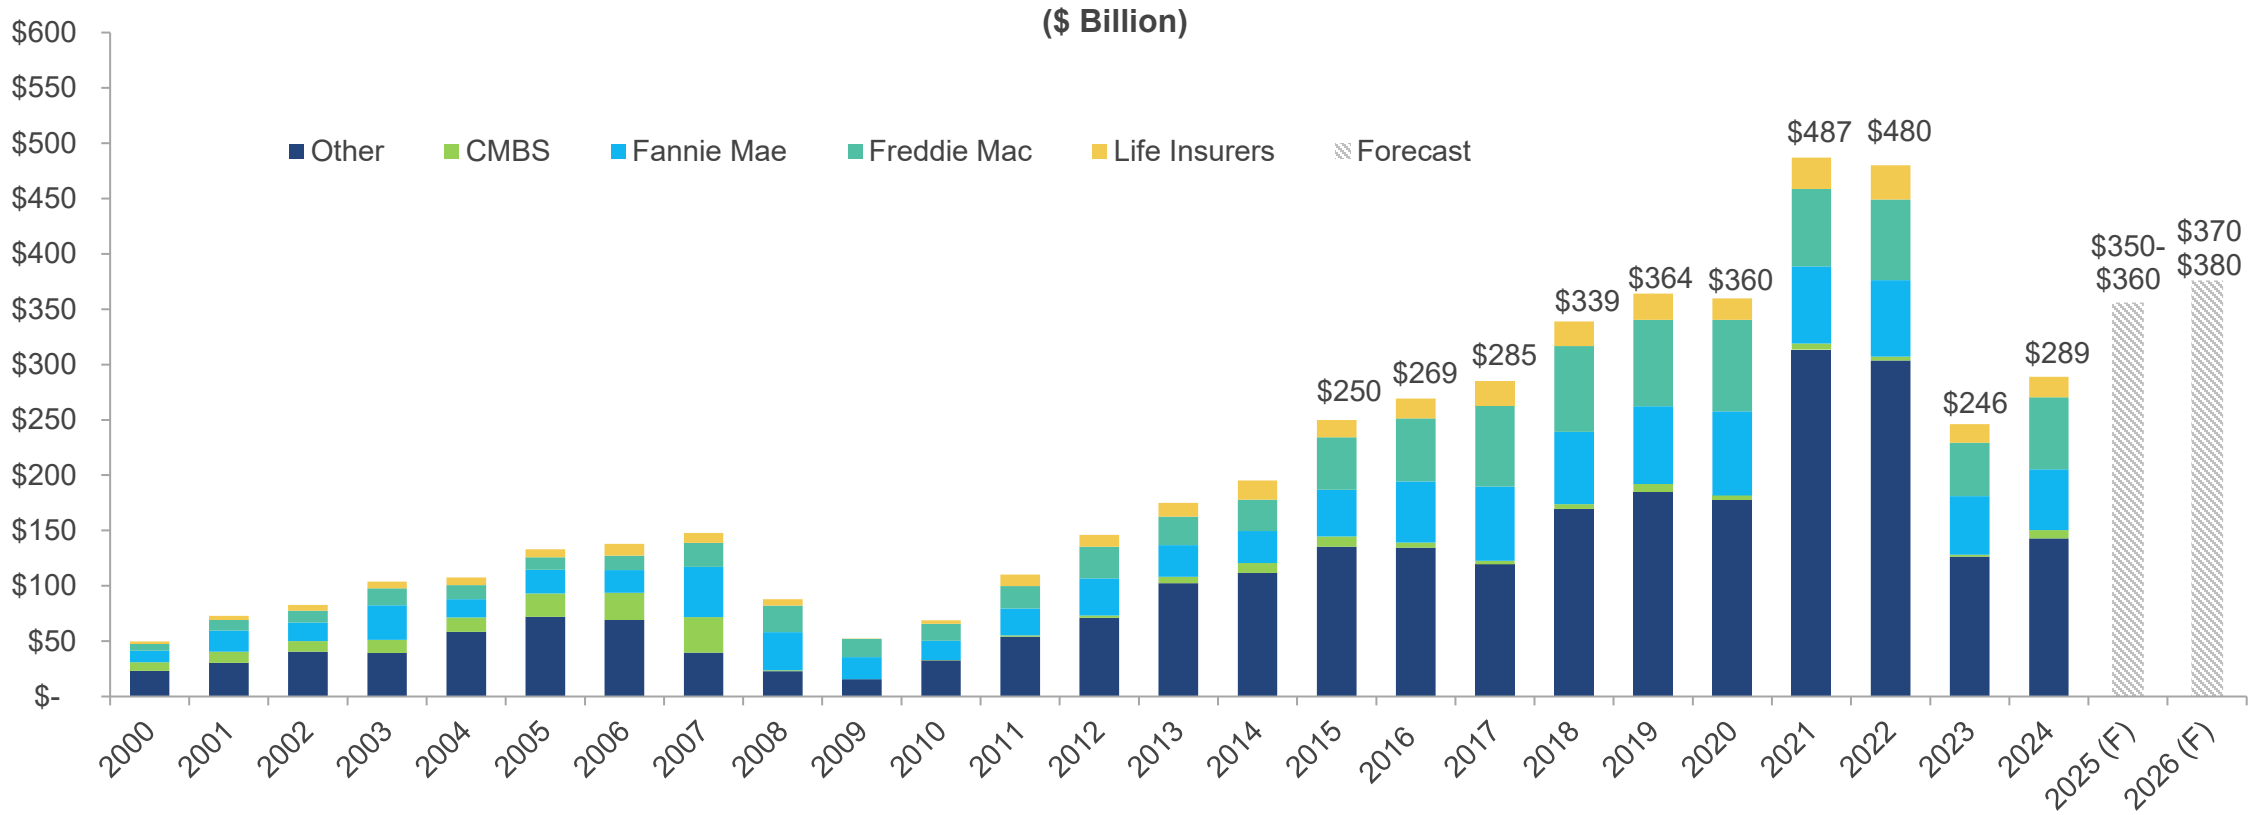
Cap rates decreased 8 bps during the fourth quarter of 2025, while the cap rate spread increased 7 bps to 145 bps, which is about half its historic average since 2000 but slightly higher than average since mid-2022 when interest rates began to rise. Property prices fell modestly in 2025, down 1.3%



Sources: Real Capital Analytics CPPI, Federal Reserve Board, Moody's Analytics CRE

Multifamily Mortgage Originations

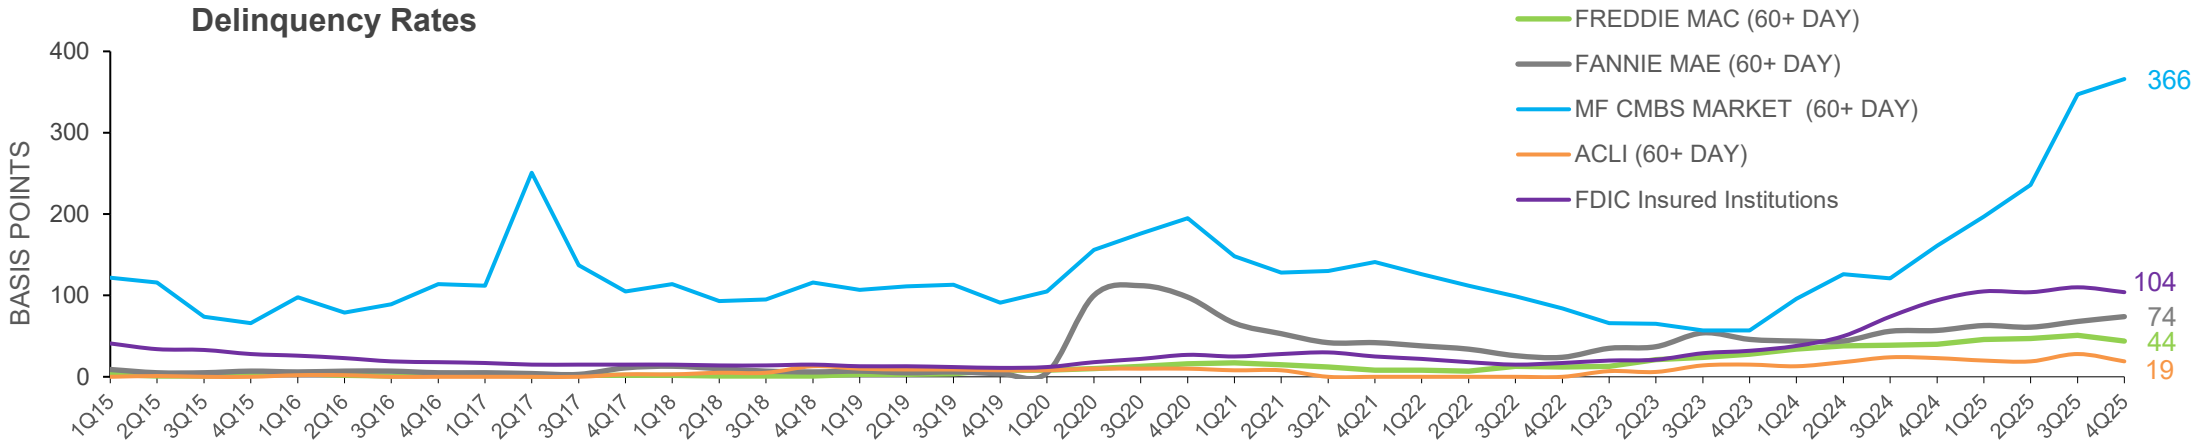
2024 volume was $289 billion (per MBA), while we project volume in 2025 to be $350 billion to $360 billion (~23% increase) and $370 billion to $380 billion in 2026 (~6% increase)

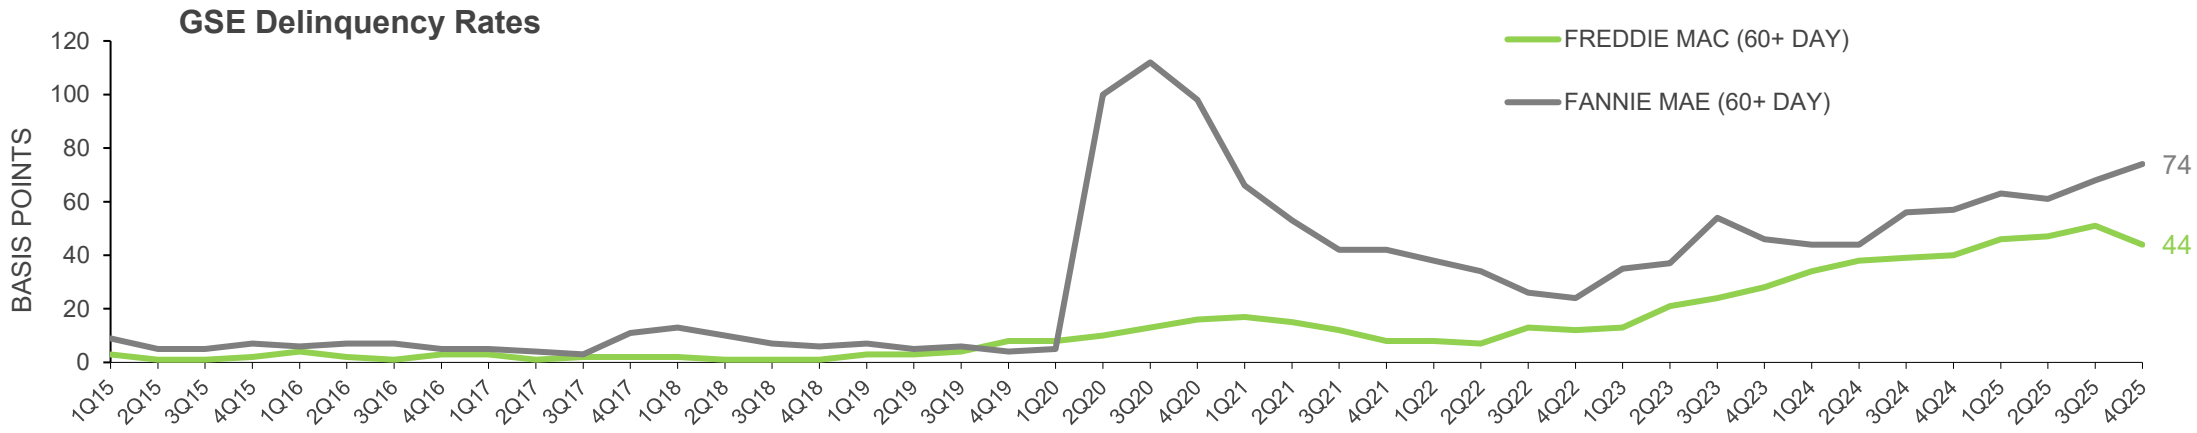


Sources: Freddie Mac 10-Ks, 10-Qs, FHFA Report to Congress, and Freddie Mac's internal reports, Fannie Mae 10-Ks, 10-Qs, FHFA Report to Congress, and Fannie Mae's Multifamily Monthly New Business Volumes, ACLI, Wells Fargo Securities LLC, Intex Solutions Inc., Mortgage Bankers Association (MBA)
Note: 2025 and 2026 forecasts are from Freddie Mac.

Multifamily Delinquency Rates

Our disciplined credit practices are one of the main drivers of the continued strong performance of our offerings





Note: Freddie Mac does not report forbearance loans in delinquency rates if the borrowers are in compliance with the forbearance agreement. Fannie Mae's delinquency rate includes loans that received a forbearance.
Sources: Freddie Mac, Fannie Mae, American Council of Life Insurers (ACLI) Quarterly Investment Bulletin, FDIC Quarterly Banking Profile, TREPP (CMBS multifamily 60+ delinquency rate, excluding REOs) for periods prior to 3Q17, Wells Fargo CMBS research for 4Q17- current CMBS delinquency rates.

Production, Sales and Underwriting

Our Optigo Lender Network

Freddie Mac purchases loans from a network of approved Multifamily lenders who have over 150 branches nationwide, substantial experience and established performance records.

- The Freddie Mac approved Optigo lender network promotes quality originations and a high level of service to borrowers
- Our lenders must comply with our standards for both origination and servicing of multifamily loans, which includes meeting minimum financial requirements and undergoing satisfactory annual audits

Our Credit Philosophy

Our credit policy and consistent underwriting practices are two of the main drivers of the strong performance of Freddie Mac Multifamily offerings

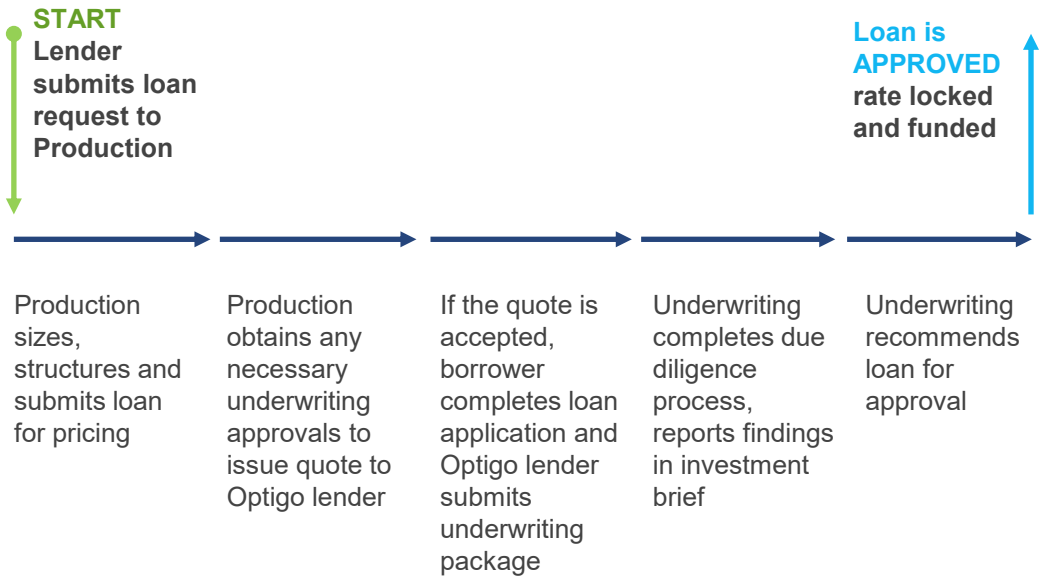
Freddie Mac makes all credit, structuring and pricing decisions working with our lenders during the mortgage production process

We are focused on:

- Sustainable cash flow
- Market knowledge & fundamentals
- Equity
- Definable exit strategy
- Sponsorship
- Investment quality real estate collateral

Underwriting teams are situated throughout the country to provide local market expertise

Our Credit Approval Process



Production, Sales & Underwriting Presence

The Multifamily Production and Underwriting teams are situated throughout the country to promote market expertise and provide better customer service. Regional focus means we have presence, experience and knowledge of local markets

Mortgage Guidelines

The following are the general guidelines for Freddie Mac's Multifamily mortgage purchases (subject to certain exceptions)

Property Type	• Origination requirements are focused on loans secured by occupied, stabilized and completed multifamily properties • Limited amount of seniors housing, student housing, cooperative housing, military housing, manufactured housing and Section 8 HAP contracts
Loan Terms	• Mortgages are fixed rate or floating rate • Various loan terms including but not limited to 5-, 7- and 10-year terms generally with a maximum amortization of 30 years • May contain initial interest-only periods • Moderate exposure to full-term interest-only loans • Full-term interest-only loans require higher initial amortizing debt service coverage ratio (DSCR) and lower loan-to-value (LTV) ratio • Floating-rate mortgages are based on 30-day Average SOFR, generally require a third-party SOFR cap and are sized using an equivalent fixed rate • Loans generally documented on Freddie Mac form loan documents, which may contain transaction-specific modifications
Borrowers	• Single-purpose entity is required for all loans greater than or equal to $5 million • A carve-out guarantor is generally required • Entity guarantors are acceptable but may require financial covenants or a material adverse change clause

Mortgage Guidelines (Continued)

Underwriting	• Effective gross income is generally calculated based on trailing three-months actual rent collections or the annualized current rent roll minus a minimum 5% vacancy rate subject to submarket data and actual rent collections • Operating expenses are generally calculated based on trailing 12 months • Real estate taxes and insurance are based on actual annual expenses • Property values are based on third-party appraisals and internal value confirmation • Replacement reserves are typically required and are generally equal to the greater of an engineer's recommendation or $250/unit or $50/pad for MHCs • Tax and insurance escrows are generally required • Third-party SOFR caps that expire prior to related mortgage maturity date are required to be replaced. Replacement cap funds are generally escrowed at 125% of replacement cost and recalculated on a semi-annual basis • Third-party reports are required (e.g., Phase I ESA, property condition, zoning, etc.) • Property condition, Phase I and Zoning reports are required for all loans over $20 million, and for loans below $20 million, the property condition and Phase I reports may be combined
LTV and DSCR	• Maximum LTV of 80%, minimum DSCR of 1.25x (fixed rate) and 1.15x on the max capped interest rate for floating-rate loans • Shorter loan terms or underperforming markets, and specialty product types typically require adjustments • All loans require a maturity risk analysis
Supplemental Financing	• Eligible one year after origination of the first mortgage • Purchased by Freddie Mac from original lender under Freddie Mac's supplemental mortgage product • Lower of 80% LTV or maximum LTV per loan agreement and minimum amortizing DSCR of 1.25x (fixed) or 1.15x (floating, at cap) • Re-underwriting required based on current property performance, an updated appraisal, financials and Freddie Mac's credit policy • Monthly escrows for taxes, insurance and replacement reserves. If the first mortgage allowed for deferral of tax, insurance and replacement reserve escrows, the supplemental will trigger collection on the first mortgage

Securitization Program

Multifamily Programs

We offer best-in-class Multifamily securities and innovative credit risk transfer (CRT) products, featuring transparency and consistency. The strong performance of our securities is a result of our disciplined credit approach, high-quality borrowers and industry-leading Servicing Standard

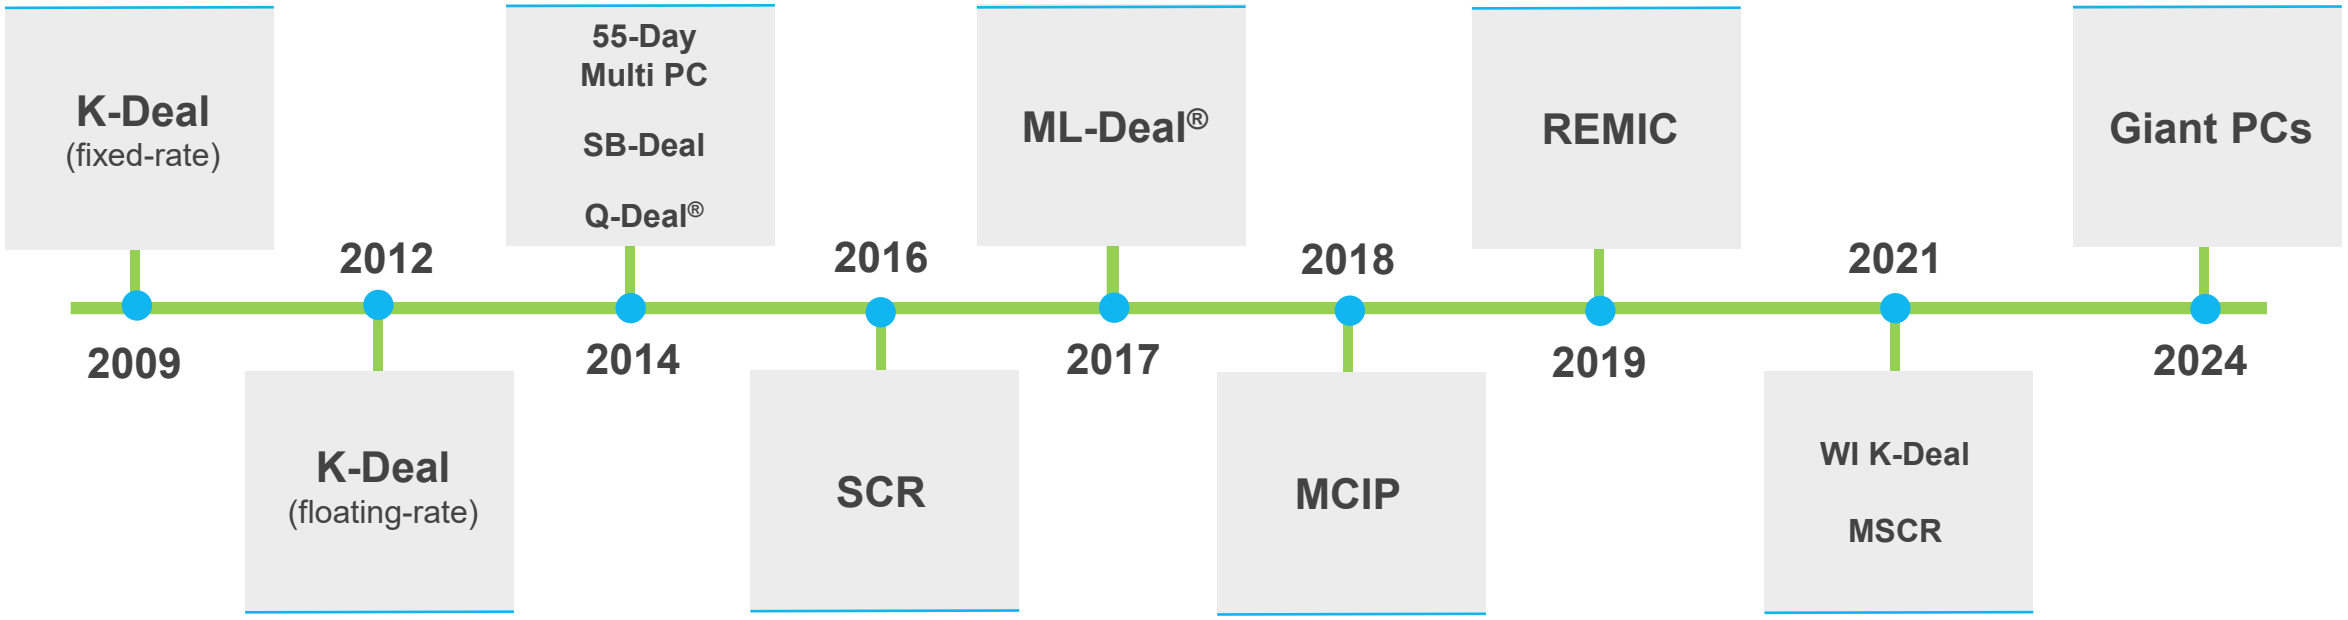
Program Offerings	Program Description	Historical Issuance Volume (through 4Q 2025)
K-Deals®	Our flagship offering and sets the industry standard for government-sponsored enterprise commercial mortgage-backed securities	**$620.9 B**
Multi PCs®	Single-tier pass-through structure and allows investors to target specific needs	**$96.4 B**
SB-Deals®	The SBL program is highly mission driven and generally targets loans between $1 million – $7.5 million for properties nationwide	**$45.2 B**
Q-Deals	Our primary third-party loan securitization platform; highly mission driven and provides liquidity to small financial institutions, sponsors and originators of affordable taxable collateral	**$12.7 B**
ML-Deals	The ML Certificate® provides the opportunity to invest in predominantly tax-exempt securities supported by pools of primarily Tax-Exempt Loans (TELs) and their related supplemental Taxable Loans secured by affordable multifamily housing properties with 4% LIHTC	**$8.9 B**
Credit Risk Transfer (MSCR® Notes & MCIP®)	MSCR Notes transfer the credit risk on a pool of loans primarily backing Multi PCs, other fully guaranteed Multifamily certificates and credit enhancement on affordable multifamily-backed bonds issued by state and local housing financing agencies. MSCR Notes are available to the capital market community	**$102.0 B[1]**
	MCIP Transactions are available to the re-insurance community	**$93.0 B[2]**

[1] Based on the total reference obligation. Freddie Mac has also settled three MSCR-SN transactions totaling approximately $1.2 billion of reference obligations, one MSCR-KKR transaction totaling approximately $221 million of reference obligations, and three legacy SCR-MDN transactions totaling $2.9 billion of reference obligations

[2] Based on the total reference obligation. Freddie Mac has also settled one MCIP-MZ transaction totaling approximately $16 billion of reference obligations

Multifamily Program Timeline

Over the years we have diversified our offerings to meet borrower needs and investor demands



Multifamily Securitization Program Strengths

Freddie Mac Multifamily is an active and consistent issuer of high-grade multifamily securities, featuring transparency and consistency on collateral and deal information

Strong Performance
secured by assets with some of the industry's lowest delinquency and vacancy rates, along with other strong property fundamentals

Transparency & Consistency
on collateral and deal information via Multifamily Securities Investor Access tool and Multifamily Securities Pricing page

Strong Credit
provided by Freddie Mac's guarantee plus credit support of underlying mortgages underwritten to Freddie Mac's portfolio standards

Servicing Standard
improves the borrower experience post-securitization

Liquidity
supported by expectations for repeatable and reliable issuance subject to market conditions

Call Protection
associated with defeasance, yield maintenance or prepayment premium

Diversification
through pooled risk of many assets versus single-asset risk in a typical deal

Transaction Structure

Freddie Mac guarantees the ultimate payment of certain principal and the timely payment of interest on the Structured Pass-Through Certificates (SPCs)

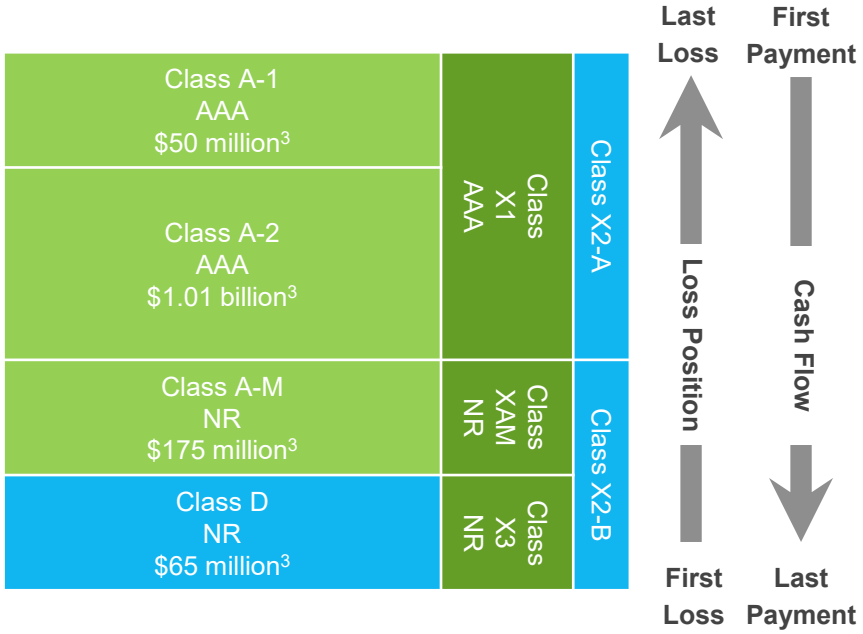
Sample Rated Fixed-Rate Deal Structure

Rated Fixed-Rate Deal Structure with Subordination[1]



Fully Guaranteed Rated Fixed-Rate Deal Structure[2]

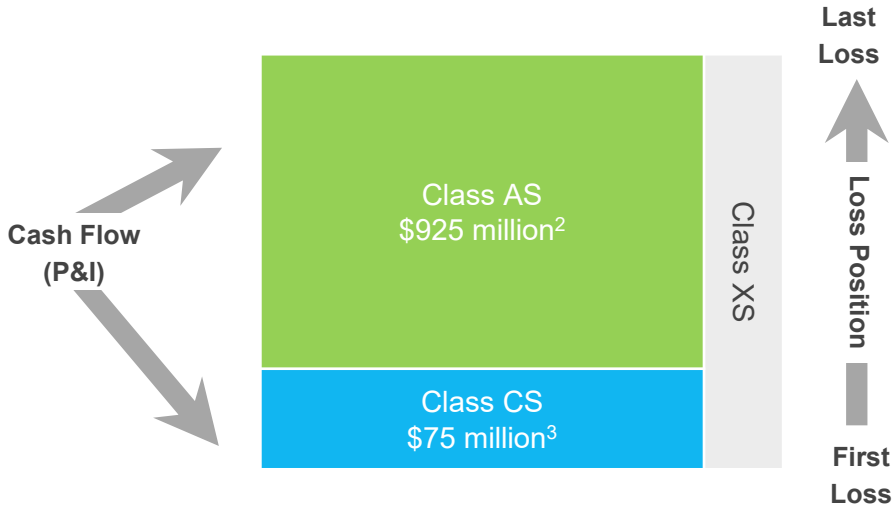
- Senior and interest-only classes are backed by Freddie Mac Guarantees
- NRSRO Ratings are acquired for our 7- and 10-year fixed-rate K-Deals
- Sequential pay structure is commonly used for fixed-rate deals
- Principal collected is distributed sequentially, unless the total outstanding principal balance of the subordinate Class A-M and (if applicable) Class D certificates is reduced to zero
- In non-fully guaranteed deals, X2-A and X2-B are 10 basis point strips across the capital stack and retained by the subordinate bond investor

[1] This structure represents a typical rated fixed-rate deal structure with subordination; alternative structures may be issued. Please refer to Offering Circular for specifics related to each deal
[2] This structure represents a typical fully guaranteed rated fixed-rate deal structure; alternative structures may be issued. Please refer to Offering Circular for specifics related to each deal
[3] For illustrative purposes only, class sizes do not reflect actual bond offering

Sample Floating-Rate Deal Structure

Freddie Mac SOFR bond offerings follow the floating-rate bond structure below

Floating-Rate Deal Structure with Subordination[1]



Fully Guaranteed Rated Fixed-Rate Deal Structure[2]

- Senior and interest-only classes are backed by Freddie Mac Guarantees
- For a deal with subordination, Principal collected is distributed pro rata, unless a Waterfall Trigger Event has occurred and is continuing. A “Waterfall Trigger Event” occurs when (i) the number of non-specially serviced loans remaining in the pool falls below the designated threshold as defined in the securitization documents or (ii) the total outstanding principal balance of the non-specially serviced loans is less than a pre-determined percentage of the initial total pool balance
- Interest will be calculated based upon the published 30-day SOFR average[4]

[1] This structure represents a typical floating-rate deal structure with subordination; alternative structures may be issued. Please refer to Offering Circular for specifics related to each deal
[2] This structure represents a typical fully guaranteed floating-rate deal structure; alternative structures may be issued. Please refer to Offering Circular for specifics related to each deal
[3] For illustrative purposes only, class sizes do not reflect actual bond offering
[4] SOFR averages are published at approximately 2:30 p.m. (New York time) on the New York Federal Reserve Bank’s website

Multifamily Securitization Volume (2009 – 2025)

We remain dedicated to our mission, providing liquidity to the market through our consistent issuance of our product execution options

	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Total

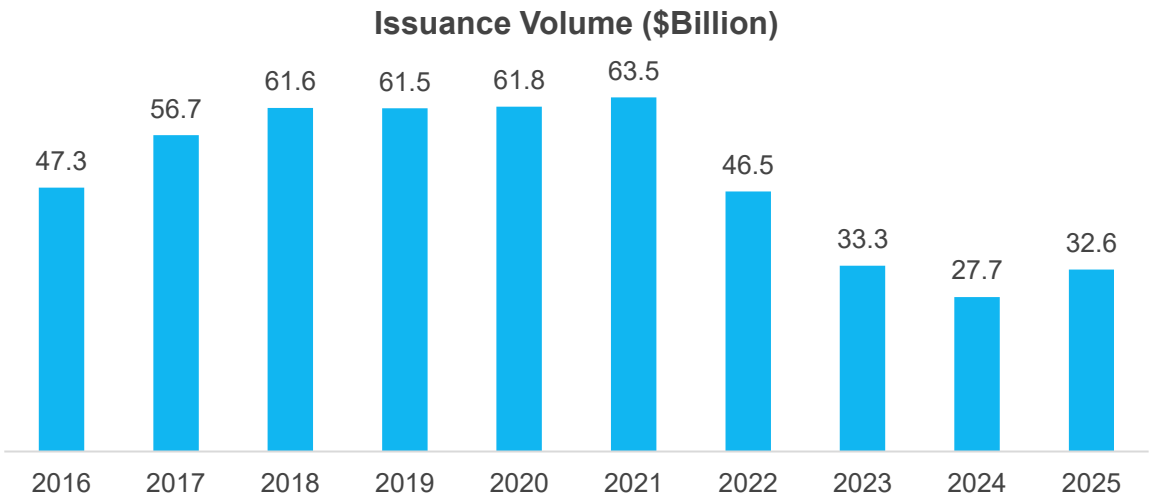
Multifamily Securitization Volume (Continued)

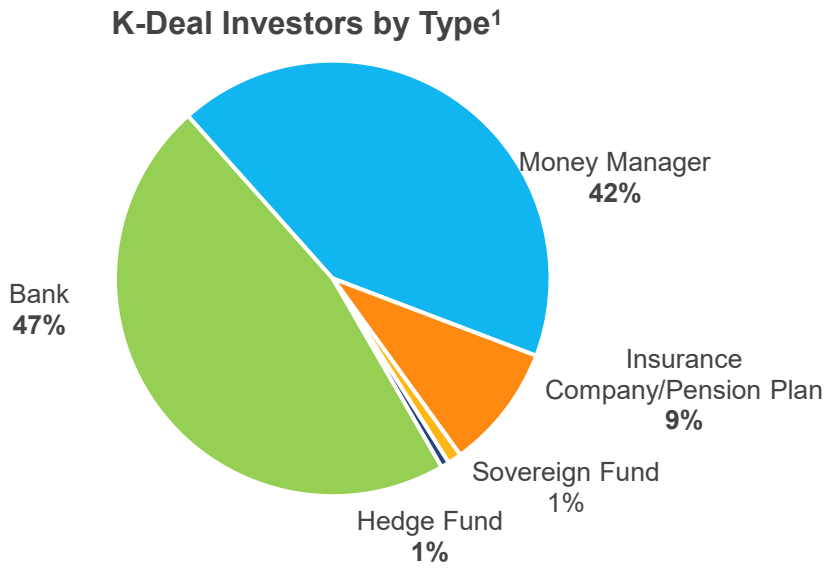
Our securitized volume was $22.2 billion across our core products in Q4 2025

	2024	2025	% Change
Q1	$11.1B	$16.3B	46.8%
Q2	$11.1 B	$14.4 B	29.7%
Q3	$12.4 B	$14.7 B	18.5%
Q4	$21.4 B	$45.4B	31.2%

[1] Monthly issuance volume reflects issuances in our K-, SB-, M-, ML-, Q-, MSCR and Multi PC programs

K-Deal Program





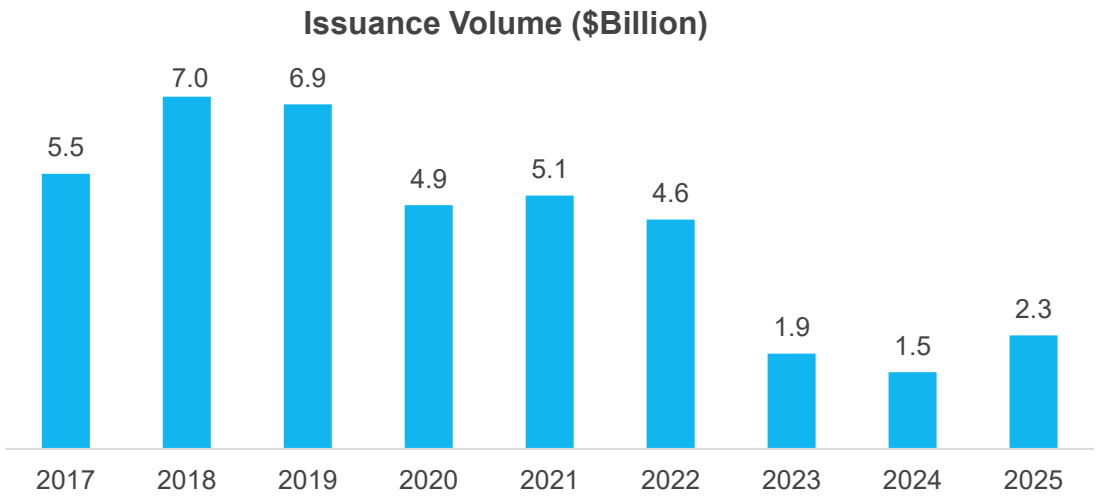
Program Highlights

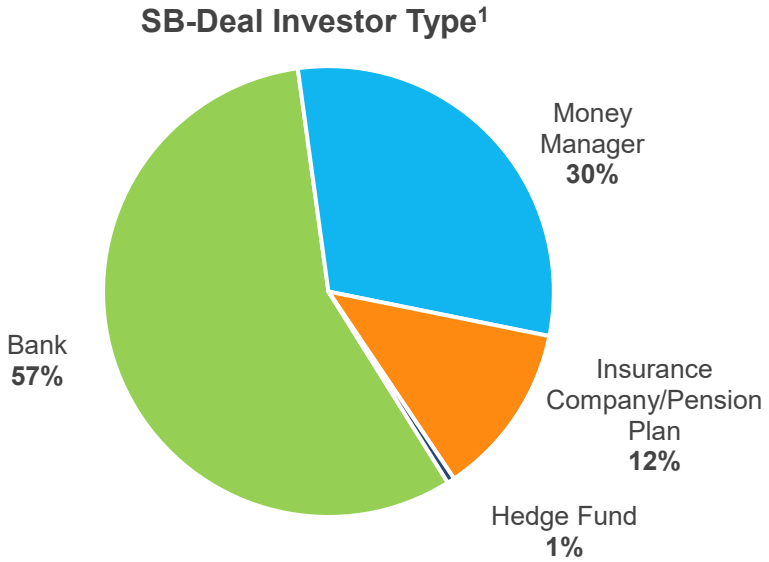
- K-Deals have strong credit underwritten to Freddie Mac's portfolio standards, plus the Freddie Mac guarantee
- NRSRO ratings are acquired for our 7- and 10-year fixed-rate A-1, A-2 and X1 classes
- Call protection associated with the prepayment features of defeasance or yield maintenance or static prepayment premiums
- Strong performance of K-Deals, which are secured by assets with some of the industry's lowest delinquency and vacancy rates, along with other property fundamentals

Find more K-Deal resources here.

[1] Data reflects senior bond allocations for all deals closed in the life of the program

SB-Deal Program





Program Highlights

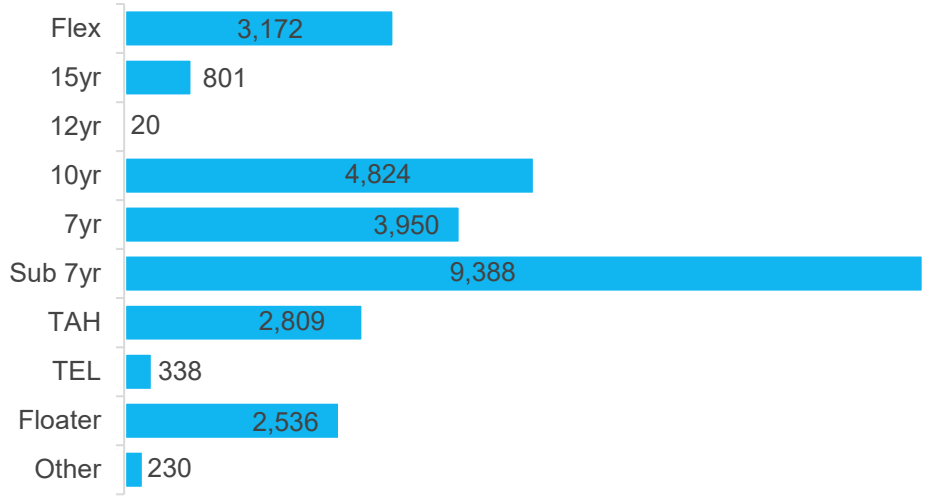
- FRESB deals are highly mission driven and are a rich source for potential Community Reinvestment Act (CRA) credit
- Freddie Mac purchases and aggregates individual loans from lenders and securitizes pools of approximately $300 million or less
- Entire flow, from quote through post-securitization monitoring, leverages K-Deal processes
- Consistent with other existing non-K-Deal securitizations (such as M-Deals and Q-Deals), SB-Deals have a separate “SBXX” designation on the FRESB shelf

Find more SB-Deal resources here.

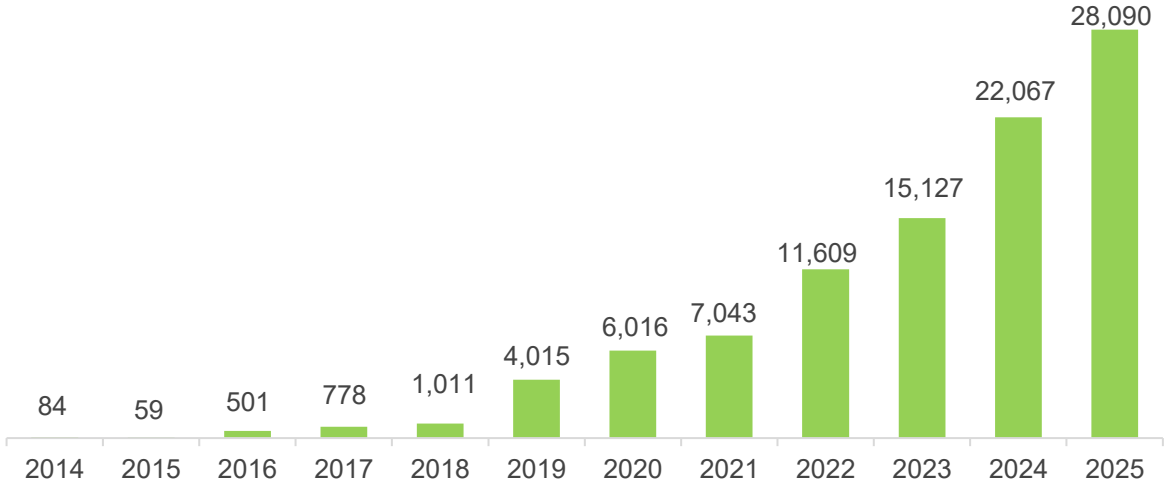
[1] Data reflects senior bond allocations for all deals closed in the life of the program

Multi PC Program

Issuance Volume by Loan Product ($Million)[1]



Issuance Volume ($Million)



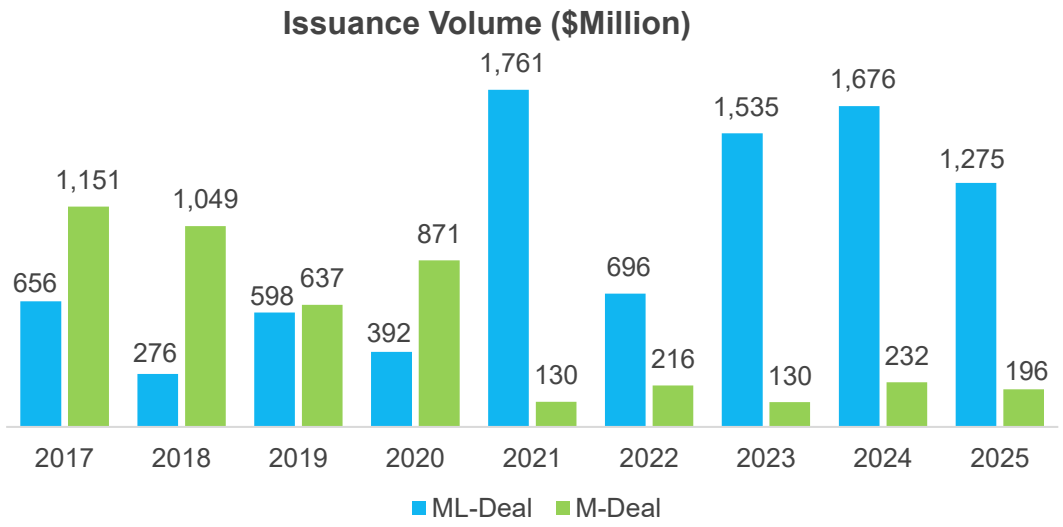
Program Highlights

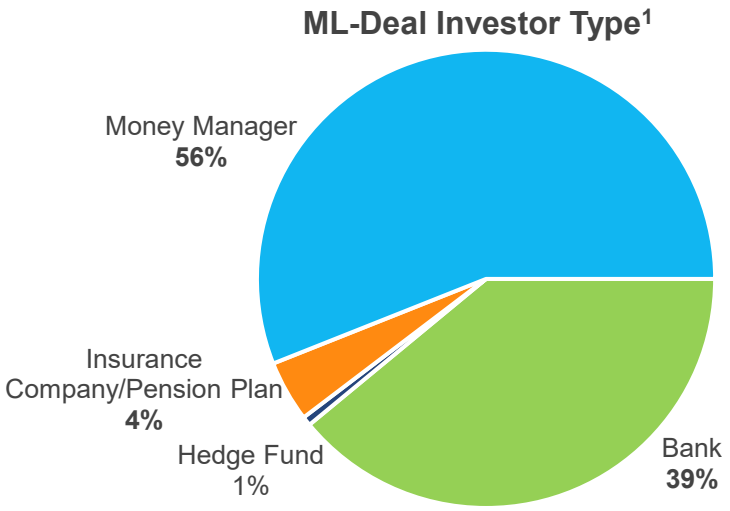
- Single tier pass-through structure fully guaranteed by Freddie Mac (one loan, one security)
- Allow investors to target specific needs. Multi PCs are taxable; TEL-backed Multi PCs are tax exempt
- Loans intended for Multi PCs are underwritten to the standards consistent with Freddie Mac Multifamily conventional line of business
- Loan program includes longer-term duration, flexible prepay, long-term financing, tax exempt, low leverage low-loan spread and TAH

Find more Multi PC resources here.

[1] Issuance Volume ranges from 1/1/2025 to 12/31/2025

M-Deal® and ML-Deal Programs





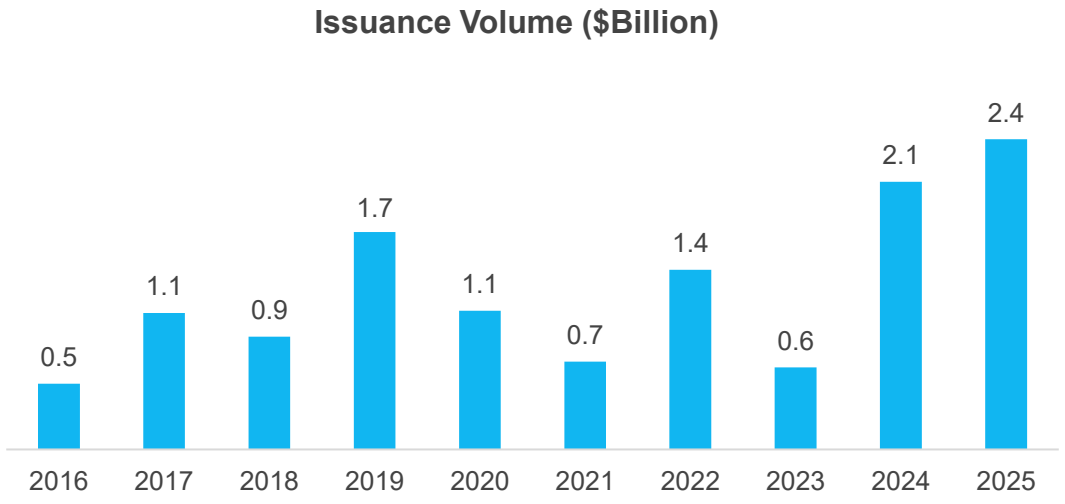
Program Highlights

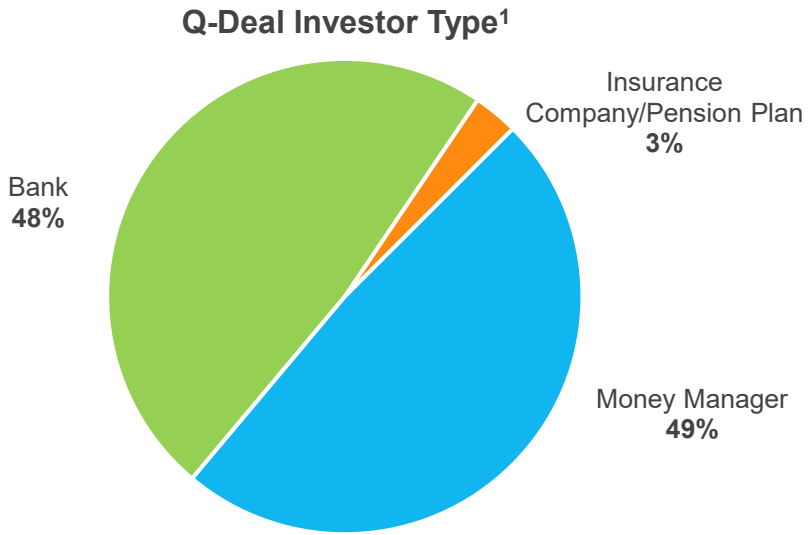
- Freddie Mac's TAH program includes loans for financing multifamily properties in underserved areas that are affordable to families with low and very low incomes, including cash loans, bond credit enhancements, tax-exempt loans and others
- Our TEL product offers loan terms of up to 30 years, a 35-year loan amortization, 1.15x minimum DSCR and a 90% maximum LTV ratio. Currently, the TEL product is available for immediate fundings, primarily for acquisition/moderate rehabilitation transactions, as well as unfunded forward commitments for new construction and substantial rehabilitation transactions
- ML Certificates provide the opportunity to invest in predominantly tax-exempt securities supported by pools of TELs and Taxable Loans secured by completed, occupied and stabilized affordable housing properties, including new construction and post-construction properties after moderate or major rehabilitation.
- M Certificates are predominantly tax-exempt securities supported by pools of tax-exempt bonds and secured by stabilized affordable multifamily housing properties

Find more M-/ML-Deal resources here.

[1] Data reflects senior bond allocations for all deals closed in the life of the program

Q-Deal Program





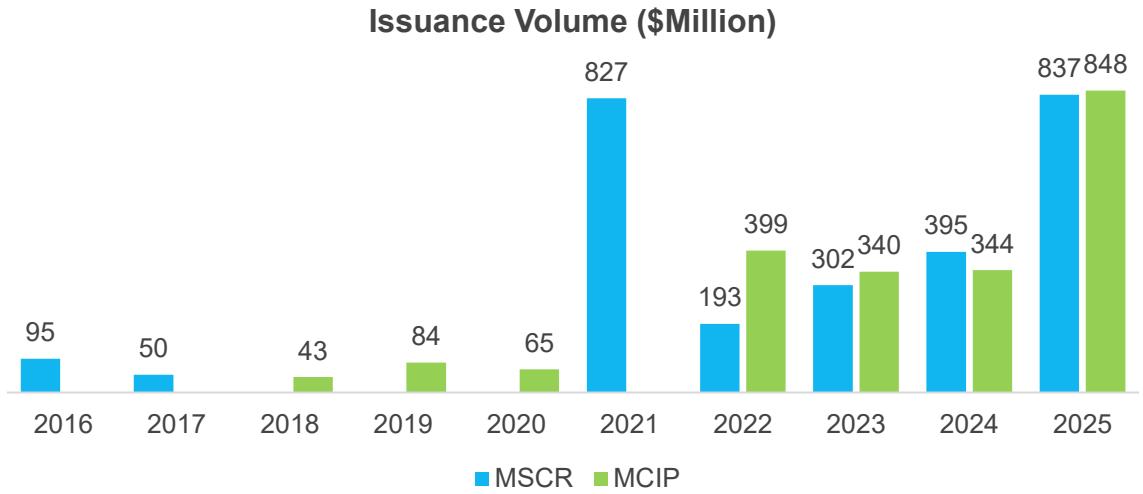
Program Highlights

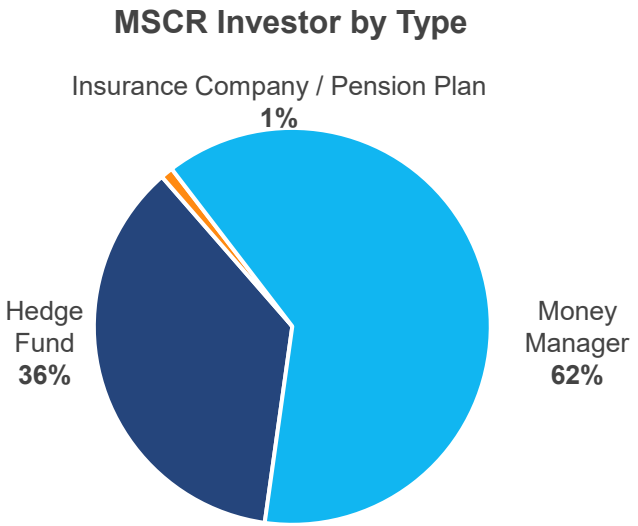
- Freddie Mac Q-Deal program securitizes third-party originations generally targeting loan pool size of $150 million or greater in aggregate UPB. Freddie Mac has expanded this platform to allow for multiple sponsors on a transaction
- Q-Deal securitization offers flexible collateral and structural characteristics that make the program and each transaction unique
- Underlying collateral are taxable multifamily mortgage loans including but not limited to SBL, loans secured by properties with 9% LIHTC or Land Use Restrictive Agreements (LURAs) and rehab loans for affordable properties
- The program offers social impact bond designation and a potential source for CRA credits

Find more Q-Deal resources here.

[1] Data reflects senior bond allocations for all deals closed in the life of the program

Credit Risk Transfer (MSCR & MCIP)





Program Highlights

- MSCR Notes and MCIP Policies offer our Capital Markets investors and reinsurers an innovative way to add U.S. multifamily market exposure while benefiting from our industry-leading underwriting and credit risk management standards
- MSCR Notes (Capital Markets) and MCIP policies (reinsurers) are subject to credit risk of an identified and unsecured pool of multifamily mortgage loans (reference obligations):
  - backing Freddie Mac Multifamily fully guaranteed certificates;
  - for which Freddie Mac provides credit enhancement for the related multifamily bonds issued by state and local housing agencies; or
  - from Freddie Mac retained portfolio originated under the same underwriting standards as our conventional business
- As of December 31, 2025, Freddie Mac Multifamily has settled 12[1] MSCR-MN transactions totaling approximately $102.0 billion of reference obligations and 12[2] MCIP-R transactions totaling approximately $93.0 billion of reference obligations

Find more MSCR Notes and MCIP Transaction resources here.

[1] Freddie Mac has also settled three MSCR-SN transactions totaling approximately $1.2 billion of reference obligations, one MSCR-KKR transaction totaling approximately $221 million of reference obligations, and three SCR-MDN transactions totaling $2.9 billion of reference obligations

[2] Freddie Mac has also settled one MCIP-MZ transaction totaling approximately $16 billion of reference obligations

Community Reinvestment Act

Freddie Mac will provide CRA side letters to investors who wish to claim CRA credit for their investments

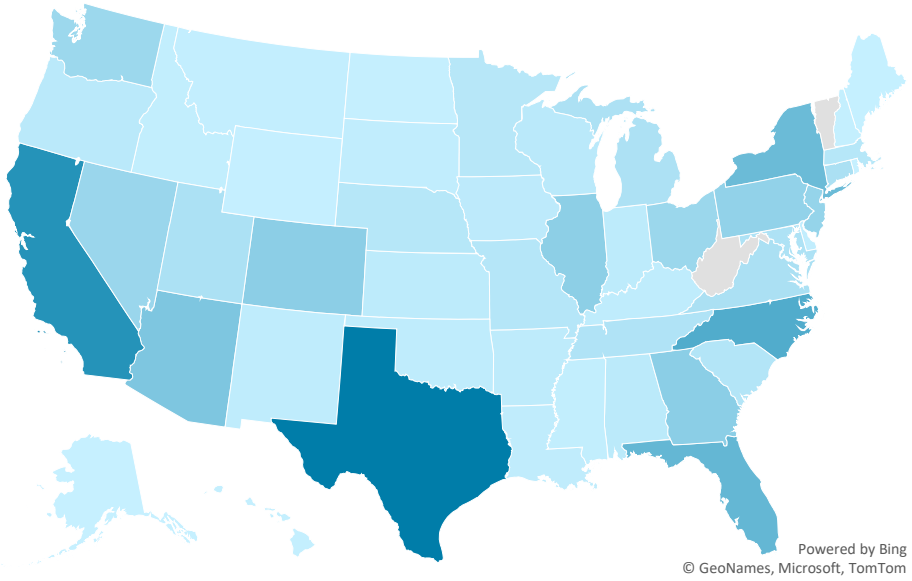
Since 2017, we have allocated $42.9 billion of investments to investors seeking to meet their CRA needs with $4.5 billion in 2025

- K-Deal: Allocated $34.1 billion of K-Deal investments to investors seeking to meet their CRA needs with $3.4 billion in 2025
- SB Deal: Allocated $5.9 billion of SB-Deal investments to investors seeking to meet their CRA needs with $701 million in 2025
- ML-Deal: Allocated $1.5 billion of ML-Deal investments to investors seeking to meet their CRA needs with $232 million in 2025
- Q-Deal: Allocated $1.3 billion of Q-Deal investments to investors seeking to meet their CRA needs with $195 million in 2025

Our nationwide lending footprint provides investors the opportunity to meet their CRA needs with investments in properties across all 50 states

Investors have sought credit in 48 states plus the District of Columbia and Puerto Rico

% of Total CRA Credit Allocated



* Subject to individual bank evaluation. Data as of 12/31/2025

Performance

Servicing Standard – Best-in-Class Service

The Freddie Mac Multifamily Servicing Standard ensures best-in-class service throughout the life of the loan

Freddie Mac's Multifamily Seller/Servicer Guide is the foundation of the "Servicing Standard" referred to in each securitization Pooling and Servicing Agreement (PSA)

- The Servicing Standard promotes transparency of Freddie Mac's servicing policies and protocols to the securitized servicing parties

Freddie Mac surveils post-securitization loan servicing activity but is not a credit decision-maker

- Freddie Mac is the named servicing consultant in each PSA — standing by to share its credit philosophy if and when needed
  - In connection with such role, Freddie Mac created the Business Guidance Request process (commonly referred to as "What Would Freddie Do") where Freddie Mac will provide a written analysis of such credit philosophy in response to an inquiry by a Master Servicer and/or Sub-Servicer (Primary Servicer)

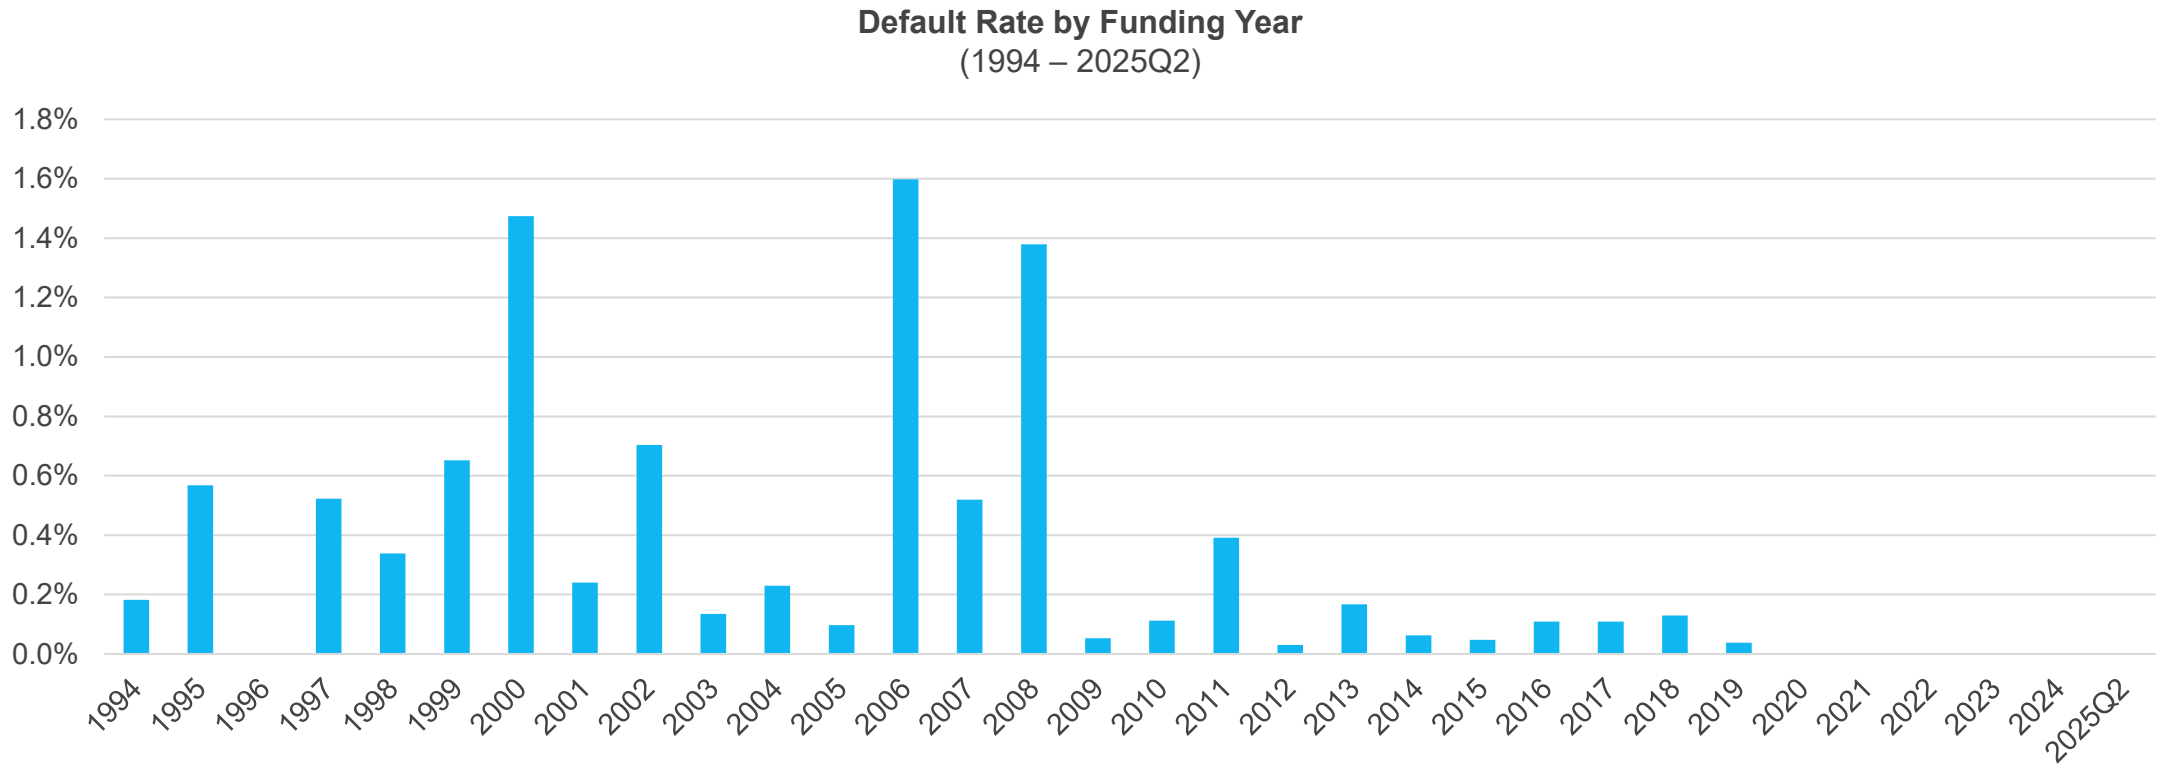
[1] Excludes Value-Add (KI01-KI06) Deals in which Freddie Mac is not the mortgage loan seller
[2] Due to a change in process, the population for December 2025 consists of all PCs settled as of October 2025. List excludes 190 Multi PC Swap transactions and 81 Multi PCs issued in November 2025.

Investor Resources

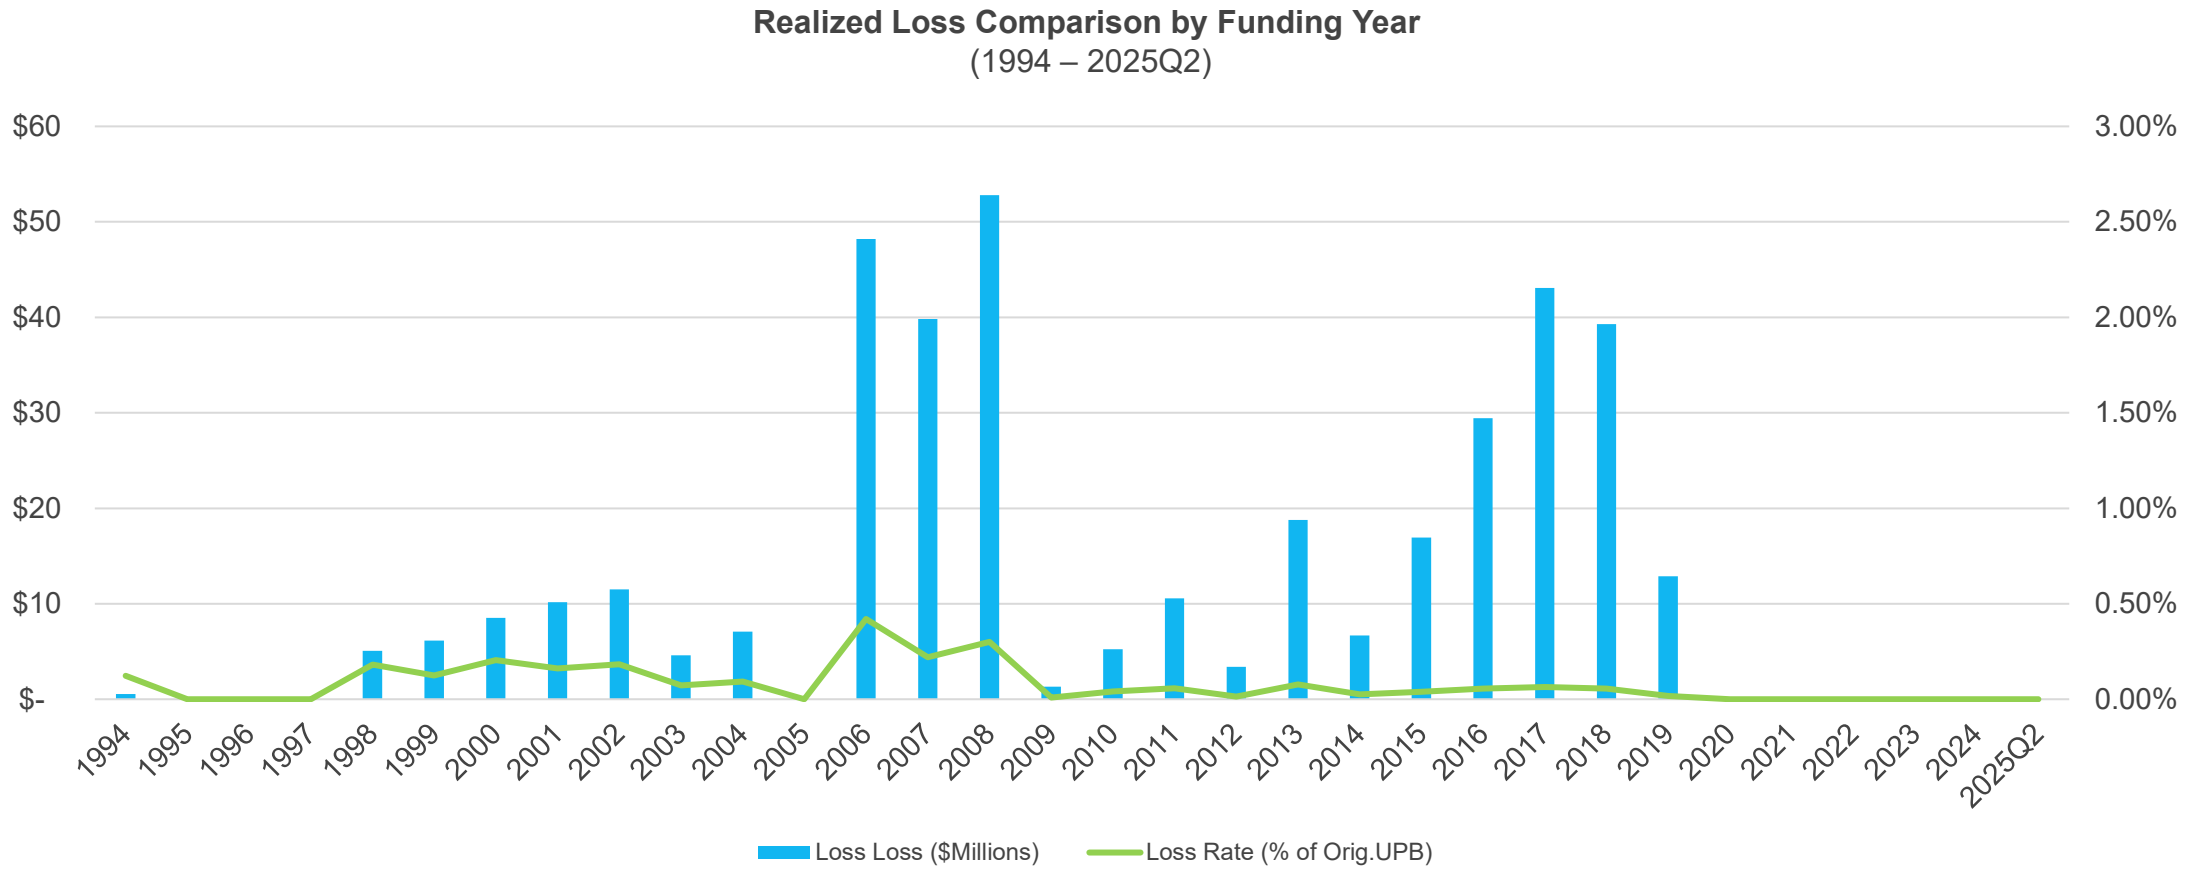
Multifamily Loan Performance Database[1]

Multifamily Loan Performance Database (MLPD) provides quarterly performance information on Freddie Mac's loans, which includes more than 61,000 loans with a total origination UPB of nearly $870 billion that were purchased by Freddie Mac from 1994 through Q2 2025. Of this reported population, approximately 0.13% has defaulted by UPB through Q2 2025



[1] The Multifamily Loan Performance Database (MLPD is available on mf.freddiemac.com. It provides historical information on a subset of the Freddie Mac multifamily loan portfolio. The MLPD comprises information regarding certain multifamily whole loan, K-Deal and SB-Deal loans. It excludes loans that are credit revolvers, sold book (pre-1994) loans, and negotiated transactions/structured deals and K001 and K002. Data as of 6/30/2025

Multifamily Loan Performance Database (Continued)[1]



[1] The MLPD provides historical information on a subset of the Freddie Mac multifamily loan portfolio. The MLPD comprises information regarding certain multifamily whole loan, K-Deal and SB-Deal loans. It excludes loans that are credit revolvers, sold book (pre-1994) loans, and negotiated transactions/structured deals and K001 and K002. Data as of 6/30/2025

Multifamily Team

Capital Markets Leadership Team

Ameez Nanjee
Vice President
Multifamily Capital Markets
McLean, VA

Ameez heads the Multifamily Capital Markets group, where he oversees loan pricing, structuring, securitization, and risk transfer. In addition to managing relationships with securities investors, reinsurers, broker-dealers, and rating agencies, he plays a key role in the capital markets strategy. His responsibilities extend to market and liquidity risk, portfolio valuation, and costing. Ameez also guides the development and execution of investment, funding, and hedging policies, ensuring alignment with organizational objectives.

Michael Case
Vice President
Loan Pricing
McLean, VA

Michael oversees all multifamily loan pricing for the Capital Markets group related to both securitized products and the retained portfolio.

Jason Griest
Vice President
Securitization
McLean, VA

Jason leads the Multifamily Securitization Group which is responsible for innovative structures and efficiencies, the loan pipeline, and Multifamily credit risk transfer executions.

Luba Kim-Reynolds
Senior Director
Investor Relations
New York, NY

Luba leads our Multifamily Capital Markets Investor Relations team. Her team markets Freddie Mac's multifamily securities platform, as well as various credit risk transfer products.

Smantha Thalji
Senior Director
Multifamily Investments & Portfolio Management
McLean, VA

Samantha leads our Multifamily portfolio management functions (funding, hedging, security investments) and all aspects of our structured credit risk transfer programs.

This product overview may contain forward-looking statements. Forward-looking statements involve known and unknown risks and uncertainties, some of which are beyond the company's control. Management's expectations for the company's future necessarily involve a number of assumptions, judgments and estimates, and various factors could cause actual results to differ materially from the expectations expressed in these and other forward-looking statements. These assumptions, judgments, estimates and factors are discussed in the company's most recent Annual Report on Form 10-K, and its reports on Form 10-Q and Form 8-K, which are available on the Investor Relations page of the company's website at http://mf.freddiemac.com/investors and the SEC's website at www.sec.gov. The company undertakes no obligation to update forward-looking statements it makes to reflect events or circumstances occurring after the date of this presentation.

This product overview is not an offer to sell or a solicitation of an offer to buy any securities of Freddie Mac or any other issues. Offers for any given security are made only through applicable offering circulars and related supplements, which incorporate Freddie Mac's Annual Report on Form 10-K and certain other reports filed with the Securities and Exchange Commission. This document contains information related to, or referenced in the offering documentation for, certain Freddie Mac mortgage securities. This information is provided for your general information only, is current only as of its date and does not constitute an offer to sell or a solicitation of an offer to buy securities. The information does not constitute a sufficient basis for making a decision with respect to the purchase and sale of any security and is directed only at, and is intended for distribution to and use by, qualified persons or entities in jurisdictions where such distribution and use is permitted and would not be contrary to law or regulation. All information regarding or relating to Freddie Mac securities is qualified in its entirety by the relevant offering circular and any related supplements. You should review the relevant offering circular and any related supplements before making a decision with respect to the purchase or sale of any security. In addition, before purchasing any security, please consult your legal and financial advisors for information about and analysis of the security, its risks and its suitability as an investment in your particular circumstances. The examples set forth above are for illustrative purposes only. Opinions contained in this document are those of Freddie Mac currently and are subject to change without notice. Please visit mf.freddiemac.com for more information. The multifamily investors section of the company's website at mf.freddiemac.com/investors will also be updated, from time to time, with any information on material developments or other events that may be important to investors, and we encourage investors to access this website on a regular basis for such updated information.
